~WOULD we stand for a law that kept 3000 families out of Oregon?

Of course we wouldn't! So it's up to us to vote the antagonistic Income Tax Law out of existence! For it has already lost for Oregon payrolls amounting to more than six million dollars (\$6,000,000) a year! And six million dollars means at least 3000 families who are lost to Oregon's population in just one year under this dangerous law.

Oregon needs Jobs and Markets The Income Tax kills both!

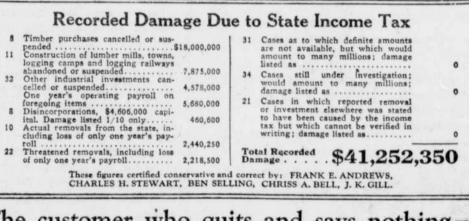

Vote 312X YES and kill the Income Tax!

If there are two things Oregon needs above all others it is (1) jobs for her workers, and (2) markets for her products. Every new enterprise or industry brought into Oregon means more jobs. Jobs support population. Every increase in population means a better market for farm and factory products.

Yet the income tax law antagonizes industries and enterprises. Many authentic cases are on file where industries MOVED OUT OF OREGON OR DECIDED NOT TO COME TO OREGON because of the income tax law. Counting loss of capital invested, purchases and payroll, this loss is already conservatively estimated at more than \$40,000,000. The payroll loss alone is already over \$6,000,000 a year!

59 Industries lost to Oregon in a single year-others threatened

These figures show the appalling effect of this unwise tax law which antagonizes industries on which a large part of our growth and prosperity depend.

pack up and move to another state! They are like the customer who quits and says nothing-you never know he is dissatisfied nor why - hence have no chance to make matters right with him. Many large concerns who left or stayed out of Oregon on account of the income tax refused to allow us to use their names because they did not want to be made to appear as tax dodgers—and yet they could not afford to carry a tax burden in Oregon which they did not need to pay in California or Washington! There is an old adage which says, "Business is sensitive. It goes only where it is invited and stays only where it is well treated." We cannot afford to AN-TAGONIZE enterprises which other states are INVITING!

This insidious law must go-It is hurting Oregon!
