EVERY DAY

"Going Over the Top" at the Exposition

The Pacific International Livestock Exposition is an educational institution. Its exhibits are brought for the purpose of teaching the public something of the work done toward perfecting animal life for the benefit of mankind.

But if, while learning this lesson, one may have a good time, it is so much the better. There is one unique part of the Exposition which delights and charms the public more than any other, and that is the horse show.

It used to be the Night Horse Show, but so popular did it prove and so great were the crowds that came to see it that matinees were added in the afternoons of the last three days. Last year it was asserted by visitors who attended the great horse shows of America every year, that the Pacific International was surpassed in

variety of performance and excellence by no other horse show in America.

Some of the finest show horses in America were at the 1923 show and they gave performances worthy of their reputation. This year even more elaborate preparations have been made for the show. Some wonderful horses, both for form and action, are to be here. There will be shown all the gait, and all the feats possible within a horse show arena.

Rapidly this show has come to the front and today it enjoys an astonishing reputation. The blue ribbons it grants for conformation and performance are eagerly sought by the best drivers and owners of this country. It is assured already that the show this year will surpass in brilliance and thrilling quality and class all its predecessors.

The spectacle of industrial exhibits will be one of surpassing beauty. In a blaze of light, every color of the rainbow will be blended to express and emphasize the quality of the fruits and vegetables, the wares of every kind, to be exhibited. The best music obtainable will be supplied every afternoon and evening. The Manufacturers' and Land Products Show and Grain and Hay Show under the management of C. D. Minton, the Dairy Products Show in charge of L. B. Ziemer and other features deserve more than bare mention but space forbids.

The Pacific International Livestock Exposition affords every man, woman and child both education and enjoyment. It is held at North Portland November 1 to 3 inclusive.

A gravel walk is being laid in front of the NEWS office this week.

**FILMS FEATURING WILD LIFE OF OREGON TO BE SHOWN**

Through the efforts of J. C. Moreland, Superintendent of the Delph Creek trout hatchery, the Eastern Clackamas Community Club will show several reels of film featuring the wild life of Oregon, Wednesday, November 5, at 7:30 p. m., at the Liberty theatre. These pictures have been taken by Otto Jones, educational director for the State Game Commission and will be shown free of charge.

The Liberty management has donated the free use of the theatre for the evening. This is a rare opportunity and everyone is urged to attend. Few pictures of this type have ever been taken of the wild life of the state, showing fish propagation, the famous antelope reserve and many other interesting things.

Remember that the state game Commission derives no monies whatever from taxes, so the man who fishes and hunts pays for these educational films, the purpose of which is to teach the necessity of fish and game conservation in our great and wonderful state. Start now conserving our fish and our game and there will be plenty for all.

Mrs. Dan Mattson came over from Portland last Sunday and spent a few hours here.

**Democratic Meeting**

The large crowd attending the democratic meeting last Friday evening at the Gem Theatre was very much disappointed in not being afforded the privilege of hearing the three principal speakers scheduled to be present. Many of them are wondering why Governor Pierce so often fails to make his appearance in this city when booked to be here.

Milton A. Miller, democratic candidate for United States senator, was the only speaker present and he spoke largely on the problems confronting this country at this time and what he considered should be done to overcome so many of the hardships imposed upon the individual. He reviewed the problems of taxation as shown by the history of our country and stated that one

of the planks in his platform was for the establishment of a non-partisan tariff commission to settle this question.

**SNAPPY TRAPS**

A Child Can Set a Snappy Trap Safely

A Snappy Self-Setting Trap--just can't catch your fingers. Simply bait the hook and press the plate. As simple as winding your watch. Made of galvanized steel throughout. Oil tempered spring. Nothing to get out of order. Will last a lifetime.

No Need to Touch The Nasty Dead Mouse

IT'S safe, sure, it's sanitary. Carry trap, animal and all to the garbage pail, a slight pressure of the thumb on the plate gets rid of the dead pest. Throwing the trap into boiling water removes the scent of the dead mouse.
