HE THAT WILL LOVE LIFE, AND SEE GOOD DAYS, LET HIM REFRAIN HIS TONGUE FROM EVIL, AND HIS LIPS THAT THEY SPEAK NO GUILE.—1 Peter 3:10.

QUALIFICATION OF VOTERS

Notice is elsewhere given in this issue to the legal voters of school district No. 108, Clackamas county, state of Oregon, that a school meeting will be held at the high school building on the 30th. day of December at 7:30 o'clock for the purpose of discussing the budget as prepared by the levying board and committee of freeholders and to vote on the proposition of levying a special district tax for the ensuing year.

The question often arises as to the proper qualification of voters at such a meeting. We quote the following extract from Oregon School Laws of 1923, page 81, Section 260, Qualification of Voters:

Any citizen of this state, male or female, who is twenty-one years of age and has resided in the district thirty days immediately preceding the meeting or election and has property in the district, as shown by the last county assessment, and not assessed by the sheriff, on which he or she is liable or subject to pay a tax, shall be entitled to vote at any school meeting or election in said district; provided, that the property qualifications imposed by this section shall not apply in the election of school directors and school clerks; provided further, that any person shall be deemed to have complied with the property qualification imposed by this section who presents to the directors or judges of election satisfactory evidence that he or she has stock, shares, or ownership in any corporation, firm, or copartnership which has property in the district, as shown by the last county assessment, and not assessed by the sheriff, on which such corporation firm or copartnership pays a tax, even though his or her individual name does not appear upon the tax roll; provided further, that in districts of the third class, any head of a family who is otherwise a qualified elector, and having children of school age, may vote at such an election without property qualifications. The chairman of any school meeting, or any qualified elector, is hereby authorized to challenge any person who may offer to vote at such a meeting. In case an elector has been challenged or disqualified, it shall be the duty of the chairman of such meeting to administer to each person so challenged an oath that he or she will truly answer all questions propounded to him touching his place of residence and qualifications as elector at such meeting, and upon taking which, if the meeting be in a district of the first or second class, he shall interrogate him respecting his citizenship in this state, his age, residence in the district immediately preceding the meeting or election and whether he has property or shares in a corporation in the district, as shown by the last county assessment, and not assessed by the sheriff on which he or she is liable or subject to pay a tax; and if the meeting be in a district of the third class, he

shall interrogate him as to whether he is the head of a family and otherwise an elector, and has children of school age in the district.

Winter Short Courses Announced at O. A. C.

Winter short courses covering 11 subjects in five departments of the school of agriculture have been announced by A. B. Cordley, dean of the school. Six courses will be given by the farm mechanics department similar to those which have in the past proved most popular.

A poultry short course will be given this year for the first time, while two dairying courses will also be given. Another class in land classification and appraisal will be announced this year and the fourth annual canners school will be held. The names and dates of courses are as follows:

- Dairy Manufacturing, January 5-31; Dairy Herd Management, January 5 to March 20; Fourth Annual Canners School, February 2-20; Poultry Husbandry February 2 to March 14; Land Classification and Appraisal, February 2-27; Farm Mechanics, (6 courses) I. Farm Power and Power Equipment, January 6 to March 10; II. Gas Engines, Tractors, and Equipment, January 19-23; III. General Farm Repair, January 26-30; IV. Water Supply and Sanitation, February 2-6; V. Gas and Electric Light and Power, February 9-13; VI. Concrete Construction, February 16-20.

See J. E. Gates and get that suit cleaned and pressed. I. O. O. F. building.

HONEY BEE INDUSTRY

The honey bee industry can be the most profitable phase of diversified farming, according to H. A. Scullen, assistant professor of entomology at the state college. Ten colonies can produce one-half ton of honey per season under favorable conditions, selling at from 15 to 20 cents per pound.

"There are a few fundamentals to remember in successful bee culture, says Professor Scullen. First, get standard equipment, that is, have the proper size hives, made correctly, with substantial brood frames. Second, have full sheets of wax foundations for the brood frames, so as to enable the bees to make an even and large amount of worker comb for brood rearing. Third, see that the bees are properly prepared for winter. Fourth, try to discourage swarming as much as possible. Fifth, keep colonies free from disease.

"As the investment is nearly \$20 per colony, the beekeeper should at least have 25 colonies to make the industry worth while. This can be done by dividing the colonies at the time, keeping young queens at the head of all colonies.

"In the Umatilla and Malheur valleys, the average amount of honey per colony is more than 100 pounds, as the fields of sweet clover and alfalfa offer ideal conditions for bees. The shorter the distance the bees have to go for nectar, the greater is the amount of honey produced."—O. A. C. Ind. News.

Mr. and Mrs. Wm. W. Smith left for Portland, Tuesday evening on business.

GIFT SUGGESTIONS

CHILDREN	LADIES	MEN
Toys	Choice Perfumes	Soft Collar Cases
Books	Beauty Boxes	Smoking Sets
Games	Vanity Cases	Military Brushes

HYCADA NEWS
 Editor..... Mary Alice Reed
 Assistant Editor..... Irene Hayden
 Sport Editor..... Glen Ely
 Class Editor..... Richard Hayman

The football banquet was given Friday night at the hotel Estacada. Those present were seniors, juniors, faculty members, board members and the guests of honor, the football men. Speakers of the evening were toast-mistress Florence June Reed, senior class president Mary Alice Reed, Principal Olson, Captain Ted Saling, chairman of the board, Mr. Ames, Manager Harvy Woodworth and last but not least, Coach Paul Giddings. Mr. Giddings presented the letters, which are in the form of a football with E. H. S. on them, to the following men: Ted Saling, Harvy Woodworth, Frank Hayden, Maurice Bullard, Harry Osborn, James Jennings, William Shearer, Everett Osborne, Oliver Suter, Foster Myers, Glenn Ely and Joe Marshall. A pleasant evening was spent in playing various games.

Mr. Olson complimented the Websterians on the fine program presented Friday afternoon. The Webs are eagerly looking forward to the Adelpic program, which is to be given Wednesday afternoon, Dec. 24.

Names will be chosen this week and committees have been appointed to get a Christmas tree and decorate it.

The following girls have been picked on the first and second basketball teams. First team, Goldie Brown, F.; Irene Hayden, F.; Irene Kaake, C.; Avis Cadonau, S. C.; Florence J. Reed, G.; Erma Jones, G. Second team, Alice Kaake, Thelma Wilcox, Myrtle Hall, Retha Ames, Geraldine Warren, Edna Bates, Edna Carter, Lenora Beck, Margaret Beck. At a meeting held Monday night, Irene Hayden was elected captain and Avis Cadonau manager.

Monday afternoon the student body had the pleasure of listening to the first rehearsal of the high school orchestra, given at the high school. They presented a very fine program and the audience could hardly believe the players were amateurs. The last number played was "That Old Gang of Mine," which met with such enthusiasm from the students that an encore was given. The student body is quite proud of the orchestra.

A basketball game was held between the juniors and seniors in the Gym Tuesday afternoon after school. The score was 27-4 in favor of the juniors. A game was planned to be played after school on Thursday, but owing to the fact that the Gym was not finished the game was postponed to a later date.

Due to the bad weather conditions, the high school Carnival which was to be given this week end, has been postponed till after the Christmas holidays.

Announces Marriage

Mr. and Mrs. Elmer Hannah surprised their many friends in this community last Sunday by announcing that they had been married the fourteenth of last June at Stevenson, Wash.

The bride was formerly Miss Esther Anderson, daughter of Mr. and Mrs. Anderson of Boring while Mr. Hannah is the son of Mr. and Mrs. E. E. Hannah of this city. Both are graduates of the Estacada high school and are well known here. They are residing in Portland at this time.

Worker Injured

Chas. Larzen an employee of the P. E. P. Company suffered a badly crushed hand last Tuesday while running a diamond drill near the Cazadero dam. He was taken to a Portland hospital for medical attention.

Whiz
 REG. U. S. PAT. OFFICE
Anti-Freeze Compound
 (Contains Alcohol and Glycerine)

USE of an Anti-Freeze solution is absolutely necessary for the successful operation of automobiles during the winter months.

WHIZ Anti-Freeze Compound, used in solution of the proper proportions, will positively prevent freezing at any temperature as low as 40 degrees below zero, and will not injure parts with which it comes in contact.

It is far more efficient than other anti-freeze agents and costs less.

When the expense of repairing and replacing parts, damaged by use of injurious chemicals, is considered, the wisdom of using Whiz Anti-Freeze Compound is very apparent.

Wood alcohol creates formic acid, through subjection to oxygen and heat, corrodes the various parts and boils at a very low temperature, which necessitates frequent renewals.

Salt solutions, such as sodium chloride, calcium chloride, etc., cause chemical or electrolytic corrosion, either of which spells destruction to any radiator in which they are used.

Whiz Anti-Freeze Compound is the "ounce of prevention" which guarantees against freezing and the resultant injury to radiators, cylinders, pumps and other parts of the circulating system.

We guarantee Whiz Anti-Freeze Compound to prevent freezing at any temperature as low as 40 degrees below zero when used according to directions.
