TAKES STEPS TO PROTECT USED CAR PURCHASERS

DETROIT, MICH., March 25, 1925.—One of the most important steps yet undertaken to protect used car purchasers and at the same time placethe handling of such cars on a more businesslike basis is the announcement by Mr. E. S. Ford, president of the Ford Motor Company that operating under a company plan Ford dealers will hereafter place a guarantee upon used Ford cars disposed of by them.

The Ford Motor Company is the first large automobile concern to take direct steps in the matter of used cars. In as much as there is about as many Fords in operation in the country as all other makes combined, it is apparent that the action of the Ford Motor Company will exert a wide influence on the marketing of used cars and in improving conditions generally in that phase of the automobile business.

"Every used Ford car represents so much unused transportation and is of value to someone," Mr. Ford said in his statement regarding the plan. "The Ford dealer through his position and intimate knowledge of the car certainly is the best judge as to the value of this transportation—the best to determine a price on the mileage the car may yet be expected to deliver—that's his business.

"With this advantage the Ford dealer is prepared to give his used car customers, benefits not likely to be obtained elsewhere.

"If re-conditioning is necessary he has the work done by trained Ford mechanics using improved equipment and genuine Ford parts, and with these economies and advantages he is able to offer the used car to purchaser at low cost and with a guarantee covering its mechanical fitness."

The plan becomes effective at once and places a guarantee on used Ford cars purchased from authorized Ford dealers, thereby insuring proper mechanical operation under ordinary driving conditions.

In assuming the direction and supervision of this plan to be carried out by its dealer organization, the Ford Motor Company feels that it is embracing an opportunity to be of greater service to those who purchase used Ford cars.

True Poetry

The only true or inspired poetry is always from within, not from without. The experience contained in it has been spiritually transmitted from lead into gold. It is severely logical, the most trivial of its adornments being subservient to, and suggested by, the dominant idea; any departure from whose dictates would be the "falsifying of a revelation." It is unadorned with worldly wisdom, deference to prevailing opinions, mere talent or cleverness. . . . Its music is the expression of the law of its growth; so that it could no more be set to a different melody than could a rose-tree be consummated with lilies or violets.

—James Thomson.

Coming to PORTLAND

Dr. Mellenthin

SPECIALIST

in Internal Medicine for the Past Twelve years

DOES NOT OPERATE

Will Be at

BENSON HOTEL

WEDNESDAY, THURSDAY & FRIDAY, APRIL 15, 16 and 17

Office Hours 10 a. m. to 4 P. M.

THREE DAYS ONLY

No Charge for Consultation

Dr. Mellenthin is a regular graduate in medicine and surgery and is licensed by the state of Oregon. He does not operate for chronic appendicitis, gall stones, ulcers of stomach, tonsils or adenoids.

He has to his credit wonderful results in diseases of the stomach liver, bowels, blood, skin, nerves, heart, kidney, bladder, bed, wetting, catarrh, weak lungs, rheumatism, sciatica, leg ulcers and rectal ailments.

Below are the names of a few of his satisfied patients in Oregon: Hedrick Wilson, Gold Beach, Ore., varicose ulcers. Frank Koehler, The Dalles, Ore., stomach trouble. Mrs. E. C. Hammeck, Myrtle Point, Ore., goiter. Mrs. John McCue, Lakeside, Ore., appendicitis. Henry Westfall, Ontario, Ore., ulcer of stomach. Mrs. E. C. Bates, Baker, Ore., eczema. O. M. Rickey, Boring, Ore., heart trouble. Louis S. Steiber, 326 E. Buchanan, Portland, Ore., adenoids and tonsils.

Remember above date, that consultation on this trip will be free and that his treatment is different. Married women must be accompanied by their husbands.

Address: 211 Bradbury Bldg., Los Angeles, California.

THE STATE MARKET AGENT DEPARTMENT

C. E. Spence, Market Agt.
Know the New Law

On application to the State Market Agent, 714 Court House, Portland, folders giving the provisions of the new potato grading and inspection law, in condensed form, will be sent to any person, and the folder also gives all the standard grades, the definitions, and other information.

State officials have been advised to see that the law is enforced, and they are warning growers, shippers and retailers that they will be checked up on.

The law will work out for the benefit and profit of any grower or shipper who is working for a reputation for reliable stock and an honest pack. Such as one should welcome his name and grade on the container. When consumers become more familiar with the provisions of the law, and the grades, they will order by grades and insist that they receive the grade that they ordered. Retailers and shippers will soon learn the growers who are observing the law. The purpose of the Act is that all concerned shall get what they pay for. It puts a premium on a first class pack.

Unreliable Scales Mean Trouble... A source of much trouble and misunderstanding between the farmer and the elevator or warehouseman is unreliable or inaccurate scales. There is little excuse for this. The state has a department, under the jurisdiction of the State Market Agt., for testing and correcting, unreliable scales. There is no charge for the service, and a competent man will be sent on request at any time.

Recently a scale inspector found a scale with an error of three pounds to each draft of grain, the result of which on the car of 750 sacks amounted to 450 pounds—the number of pounds billed but not put into the car. Another scale showed an error of 189 pounds on an average load of 4000 pounds.

Many scales are balanced by tying nuts and washers on the counterpoise, and many are not properly installed, not being boxed in, with the result that the wind will often make a difference from one to six pounds, depending on its velocity. At one of the Portland mills the force of the wind on a box car of grain, weighed upon track scales, a variation of 1800 pounds. The pressure of wind upon a truck load of five sacks of grain being weighed inside of a warehouse will cause a variation of from two to three or more pounds from outside weights.

Country scales should be given far more attention. When they are accurate, much of the present misunderstanding will be removed.

Building Up From Cement

Several years of mistakes and failures in cooperative work have taught growers valuable lessons, and the work is now going forward much more safely and satisfactorily. They now realize the value of strong personalities, dynamic leaders, men and women of executive ability to work with and direct. And as the organizations are founded on such solid foundations they succeed. Farmers are now following the methods of big private corporations. They argue that what others have done they can do—and they can. The cooperative movement is fast spreading over the country and during the past year there have been comparatively few failures.

VIOLA

There was a bad accident at the Potter mill here last Thursday when the fly wheel broke and pieces flew all around the mill. Some went through the top floor and the steam pipe broke when a piece of the fly-wheel hit it. Tom Potter, the engineer, was the only man injured and he received two fractured ribs and a fracture of the skull. He was removed to the Oregon City hospital for treatment. The other men had very narrow escapes but none were injured.

Miss Bernice Miller has been confined to her bed with a very bad cold this week.

The play given by the young people of Highland on Friday evening at the church here entitled, "The Old Fashioned Mother", was greatly enjoyed by a good crowd. The receipts amounted to \$17.50. The play was well produced and taught a good moral lesson.

There will be an Easter Program at the church here on Sunday evening given by the Sunday School. The collection for the evening will go to the "Boy's Farm Home" at Corvallis under the direction of the W. C. T. U.

Liberty Attractions

Jack Holt and Norma Shearer in the Paramount picture, "Empty Hands" which will be shown Sunday and Monday lived as the first man lived before tools and weapons were invented.

Al and Ray Rocket, the young producers of "Abraham Lincoln" which is scheduled to show at the Liberty, April 30 spent nearly three years transferring to the screen the life of Lincoln.

REMARKABLE PICTURE WILL BE SHOWN HERE

Arrangements have been completed by Carl Douglass Post of the American Legion for bringing to Estacada the American Legion's film classic, "The Man Without a Country." This unusual film will be shown in the near future.

"The Man Without a Country" is said to be one of the most remarkable photo plays ever produced. When the picture had its world premier at Washington, D. C., the top admission price was \$10. The picture has had a long run in New York City, where the most critical reviewers described it as "a picture that will stir the blood of every American."

The picture is based upon Dr. Edward Everett Hale's masterpiece. Arnold Daly plays the leading role of Philip Nolan, "The Man Without a Country," who was banished after he had damned his country while on trial for complicity with Aaron Burr's treason plot. Patriotism and love are the keynotes of the production which are worked out to a surprising conclusion.

Miss June Oakley of Seattle, is visiting at the home of her sister, Mrs. Mae Reed.

The city has a crew of men repairing a leaking water main in front of the Pharmacy.

All kinds of blacksmithing and auto repairing done at W. A. Rhodes Shop, Currinsville, Ore. Car work 75 cents per hour. 3-19-4-9
