

## Make Hay The Fordson Way

**H**AYING days are busy days on the farm. A few hours' delay may result in a crop spoiled.

With the Fordson, you can mow your fields quickly. You can do your raking and loading in a fraction of the time formerly required. You can store your crop ahead of the showers.

**"I'd as soon  
turn in my dog"**

"Turn her in? Why should I? That old Ford is as good as she ever was. Since I switched to that new Zerolene 'F' for Fords she runs like a clock and seems to have a bit more power too."

Zerolene "F" for Fords gets to all the bearings requiring lubrication—especially the wrist-pin bearings and the upper half of the cylinder walls that are frequently oil-starved when an unsuitable lubricant is used.

It deposits a minimum of carbon, and because it lubricates better, enables the engine to develop a considerable margin of power over and above what you're accustomed to expect from your Ford.

And it costs not more, but less than most of the special Ford oils now on the market.

A Ford is an A-1 transportation investment. Protect your investment by proper lubrication.
