**KIGGINS-AMES NUPTIALS**

Last Sunday afternoon a beautiful wedding took place at the home of Mr. and Mrs. A. G. Ames, on Broadway, when their daughter, Betha Ina, was given in marriage to Mr. Otto Andrew Kiggins of the city.

Presiding the ceremony the Misses Katherine and Violet Walters of Underwood, Washington, sang "Berausset" accompanied by Lester Underwood at the piano.

To the strains of the "Bridal Chorus" from Lohengrin, played by L. Underwood, the bride, leaning on the arm of her father, entered, accompanied by Miss Irma Jones, maid of honor. She was gowned in white lace over white satin and wore a tulle veil made in cap shape, with orange blossoms wreath—which her mother had worn on her wedding day. She carried a shower bouquet of Ophelia roses, white Sweet Peas and Lily of the Valley. Miss Jones wore pale green crepe de chine with headband of rose buds and carried an arm bouquet of Sweet Peas in shades of pink. Little Estelle Armstrong, flower girl, wore blue voile embroidered in pastel shades and carried a basket of mixed Sweet Peas. Bobbie Jones, cousin of the bride, was ring bearer and wore a suit of dark blue velvet.

Theodore Kiggins, brother of the groom, served as best man. The impressive ring ceremony was performed by Rev. Howard Mort of Independence with the strains of soft music played during the service.

Following the wedding, light refreshments were served by Mrs. Lena Underwood, Mrs. Hugh Jones, and the Misses Katherine and Violet Walters.

The house was beautifully decorated for the occasion, the bay window was formed into an arch covered with pink roses against green ferns and white streamers and pink roses. A cluster of three bells hung from the center of the arch and streamers held by cupids on pedestals in opposite corners effectively completed the decorations. Cut flowers were used in profusion throughout the house. The color scheme being pink and white.

The ceremony was witnessed by the relatives of the young couple and a few intimate friends.

The happy couple left for a motor trip to Lost Lake and other points of interest. After September first they will reside in their new cottage at the corner of Sixth and Broadway.

**CHEVROLET REDUCES PRICE**

A Detroit dispatch dated August 13 states:

Announcement of a price reduction effective August 1 on Chevrolet closed models was made today by R. H. Grant, general sales manager of the Chevrolet Motor company.

The revised price list is as follows: Coupe reduced \$40 to a new price of \$675; coach reduced \$40 to a new price of \$695; sedan reduced \$50 to a new price of \$775.

"The record production and phenomenal sale of Chevrolets during recent months enables the company to reduce prices at an earlier date than at first had been contemplated," said Mr. Grant. "It is the result of quantity production, permitting a quality manufacture at lower cost."

Mr. Grant pointed to the fact that the Chevrolet Motor company will have exceeded by August 20 its total production for the year of 1924, after having established production records for three successive months. The company will make its two millionth car early this fall, and will be the first manufacturer of three-speed gear-shift cars to reach that production mark.

"The largest producers gain an advantage by effecting substantial savings through enormous purchasing power," continued Mr. Grant. "The Chevrolet Motor company is passing this advantage on to the car buyer."

Incidentally, the benefit of the price reduction will extend also to more than 8,000 persons holding Chevrolet six per cent purchase certificates for future delivery on the closed models. The payments and interest on the certificates now will attain the total down payment for delivery earlier than would have been the case under the former price schedule.

Very little pruning is ordinarily necessary in the case of the loganberry. If the canes are healthy and vigorous they may be trained at full length. Occasionally, when the rope system is used, the canes are so long they interfere with the next plant. In which case the ends should be shortened somewhat. Frequently canes are produced which are not long enough to be attached to the trellis. These bear but little fruit and may interfere with the new shoots. Old canes should be taken away as soon as the crop has been harvested. This practice gives the new shoots more air and sunlight. It also aids materially in keeping down insect pests and diseases.
