**"Every day
in every way"**

"Yes, sir, this old Ford actually seems to be getting better every day. Since I drained the crankcase and filled up with the new Zerolene 'F' for Fords, she starts quicker, has more power, and seems to go a little farther on a gallon of gasoline."

Zerolene "F" for Fords gets to all the parts where oil is needed especially the wrist-pin bearings and the upper half of the cylinder walls, which are frequently "oil-starved" when an unsuitable lubricant is used.

Zerolene "F" for Fords is made by the Standard Oil Company's patented vacuum process. It deposits a minimum of carbon.

Yet Zerolene "F" for Fords costs not more, but less than most of the special Ford oils on the market.

A Ford is an A-1 transportation investment. Protect your investment by proper lubrication.
