THE ESTACADA HOTEL

Dinner in our large, well ventilated dining room. Atmosphere about right and well cooked meals, properly served. Where everybody wears a smile, where you feel the welcome awaiting you—and the price of the meal is reasonable—does this not make you realize that Estacada needs just such a home hotel as

THE ESTACADA HOTEL

NO COMPANY'S NOT COMING

If you drop a dish cloth, company won't come, save as a matter of coincidence. Popular superstitions like this are losing ground; so is the superstition that there is something mysteriously better about "eastern" motor lubricants, merely because they cost more and are made in the east.

The Right Way to Judge Motor Oils

More than ever, motorists are discovering that the test of an oil is not where but how it is made, and how it lubricates. That's why Zerolene—refined from selected western naphthenic base crudes—is today successfully lubricating more cars in the Pacific Coast states than any other oil made.

An Exclusive Process—What It Does

Lubricating qualities have never been more carefully or successfully preserved than by the processes used at Standard Oil Company refineries for the refining of Zerolene—the Zerolene high-vacuum process, the Zerolene process of filtration through 40 tons of Florida Fuller's Earth, the refineries' 15 positive checks for quality!

What Zerolene Will Do For Your Car

Zerolene will give your car better lubrication: it increases the gasoline mileage, reduces carbon-removal and maintenance costs and lengthens the life of any engine in which it is used. Why pay tribute to a superstition? Insist on Zerolene. Always ask for Zerolene by name.

Get the Facts!

A series of independent and impartial reports showing the experience of large users with Zerolene motor oil has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.

Insist on Zerolene—even
if it does cost less
