### L. D. S. SERVICES

The Reorganized Church of Jesus Christ of Latter Day Saints holds Sunday school at I. O. O. F. hall at 10 A. M.

### Zoo Food Bill

Old and worn-out horses in London are bought by the managers of the zoo, made fat and sleek, then slaughtered and fed to the animals, the number of horses thus disposed of last year being 440. The walrus colony fed on five tons of codfish, besides nearly forty tons of herring. Other articles of food for the animals included 14,000 tins of milk, 128 pounds of honey, 258 pounds of ants' eggs, 77 pounds of meal worms, 150 bunches of onions, 218,000 bananas, 348 gallons of fresh milk, the food bill for the year reaching \$50,000.—Ohio State Journal

### OBITUARY

Elizabeth J. G. McCalmont was born in Larne, County Antrim, Ireland, March 20th, 1879. She was married to A. H. Fraley, December 9th 1908, in Iowa. One child, a daughter, Dora, was born of this union. In her childhood, Mrs. Fraley united with the church. Hers was a consistent Christian life. Mr. and Mrs. Fraley have lived in Estacada for the past three years, during which time she was invalid. This prevented her from forming an extensive acquaintance in the community. Prior to their coming to Estacada, Mr. and Mrs. Fraley took membership with the Sunnyside Methodist Episcopal church of Portland of which she was a member at the time of her death. For some weeks past her departure from this life has been expected. On Saturday, September 26th, at 7:30 p. m. she left her earthly home for the one beyond.

She leaves her husband and daughter Dora to mourn their loss. Beside these her aged mother in Belfast, Ireland, and a sister, Mrs. Sadie Schoepboerster of Sumner, Iowa, survive her. Her father, three sisters and two brothers preceded her in death.

"Weep not for me, I heard her say; For all have done their best. The strife is o'er, the battle won. Oh, lay me down to rest." The interment will be in the Sunnyside cemetery, Portland, Oregon.

The medical chamber of commerce has sent a resolution to Rhea Luper, state engineer, urging the state irrigation securities commission to extend state guarantee on interest on \$400,000 of bonds issued by the Eagle Point irrigation district for a period of one and one-half years. This was rejected by the commission at a recent meeting, with the understanding that the irrigation district would be entitled to another hearing.

# Makes Night Driving SAFE

## The Controllable Beam on the Better Buick

Night driving strain, the blind insecurity when you dim to keep glare out of the eyes of an approaching driver—both have been eliminated by the Controllable Beam Headlight, a feature of the Better Buick.

Daytime visibility every inch of the way! Bright light all the time! A simple control on the steering wheel lowers the beam when you near another car.

And this is only one of many 1926 improvements which Buick engineering has given to the Better Buick. 75 horsepower and more; Duotone in Duco finish; Triple Sealed Valve-in-Head engine; light-pedal pressure clutch; approved mechanical 4-wheel brakes; and many other exclusive advancements now make the Better Buick the better car to own and drive.

### Now Famous Broadway Started as Cowpath

Though some New Yorkers believe that Broadway starts at Forty-second street, the story of Broadway, if completely told, is a long, long story. For Broadway it was that led from the old Dutch fort, Fort Manhattan, built 300 years ago, to the gate in a wooden wall that shut the village in from the wilderness beyond, says the New York World.

It was called by the Dutch the Heere straat. It was only a country road. The real business center of the village was Pearl street.

By 1720—200 years ago—Broadway had become somewhat more important in the life of the village. It now extended to what is at present the beginning of Park row. And what is now Broadway above its junction with Park row was then called Rope walk. Broadway's life, as a growing proposition, was thought to be over. Even at the time St. Paul's was built (1785) it seems that Broadway's prospects of becoming a longer street had improved only slightly. For St. Paul's was built facing the river.

But before it reached its second one hundredth birthday Broadway had come into its own. Not only was it much longer and broader, it had become the fashionable shopping center of the city.

### Only One Right Way to Compute Century

The word century means 100, it is usually applied to years and according to the Christian calendar each 100 years from the birth of our Lord forms a century. Now ask yourself how many years make 100 years. Of course the answer is obvious—100 and not 101, just as 100 cents make a dollar, says the Springfield Republican. When you have 101 cents you have \$1 and 1 cent on the second dollar.

The first century closed at midnight December 31, 100, and that instant the Second century commenced, and so the Twentieth century commenced on January 1, 1901. Then began the year that with the following: 99 will make up the 100 that will form the Twentieth century. It is absurd to claim that an event that occurred, say, on March 1 following the birth of our Lord, which is the starting point of our calendar, did not occur in any year at all. Having occurred after that birth it occurred in the Christian era and having occurred in the following March it occurred in the year which consisted of the first 12 months following that birth. That date should be written March 1, A. D. The second year began with the following January.

### Tire 'Em Out

Someone told us once the story of an old mammy who, having taken her charges up to the nursery at sundown and tucked them in for the night, would then rock noisily, stamping with her great feet, slapping her knees and singing to them at the top of her considerable lungs. A puzzled passer by once pointed out that whereas her methods might serve admirably to wake the young ones in the morning, it seemed an odd way to select for putting them to sleep.

"It's de best way," the old woman roared cheerfully. "You gotta tire 'em out. Dat's wat I say. Tire 'em out." —New York Herald.

### Observation

"The trouble with most people," I was telling the assembled guests, "is that they fail to observe the nature."

everyday things in life—the persons they meet, what goes on around them, the places they visit, the streets through which they pass—in brief the thousand and one details that contribute to make up one's daily existence. "Observation," I added, "is unquestionably the most valuable of qualities."

It was not till I had finished that I noticed that the entire gathering were asleep save one member who had left the room.—Exchange.

### Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE consists of an Ointment which quickly relieves by local application, and the Internal Medicine, a Tonic, which assists in improving the General Health. Sold by druggists for over 40 years. F. J. Cheney & Co., Toledo, Ohio.

"Your home paper" means just that—nothing more nor less—when The News is concerned.
