Swains who have been in the habit at holiday time of surprising young ladies "under the mistletoe" will earn with some regret that the department of agriculture has decided the parasite plant must be destroyed from Oregon forests. Never mind, boys. A kiss under any old kind of a bush has the same delicious flavor.

The greater part of the cry for tolerance comes from a source that has always shown the least of that principle toward every other belief. The history of its tolerance smears every page in the past in every country, in every clime where it has intruded itself and raised its head to harry, to persecute and attempt to destroy every other faith but its own.

Mr. Joe Hopps, an employe of the Honeyman Hardware Co. of Portland, was a caller at the Eshelman home on Sunday. He and Mr.

Eshelman were in the hospital at the same time and became quite good friends.

Verne Anderson, a former Estacada boy, is visiting friends and relatives at this place this week. He is home on a fifteen day furlough from his duties at the navy yards near San Francisco. He is an electrical engineer in the department and likes the work very much.

The Odd Fellows were given a little surprise last Saturday evening when at the close of lodge they were invited into the dining room where a lovely lunch had been prepared and spread for them. The hostesses for this affair were twelve Rebekahs. After the lunch all joined in playing games, chatting and a general good time.

Mr. and Mrs. Fred Horner, of Dodge, went to Gresham on Saturday to have Mr. Horner's hand dressed by Dr. Adix. Mr. Horner very unfortunately had his hand badly cut in a saw while at work at the mill in Dodge last week and at first it was thought perhaps he would lose several fingers. However, his hand is much better so will probably come along fine without more serious trouble.

SALE OF CHRISTMAS SEALS

It is scarcely necessary to make any comment on the sale of Christmas seals.

Made possible the examination of children's teeth and the dental clinic which has been in operation since June 11, 1925.

7,500 grade school children were examined in the complete survey of Clackamas county grade schools. At the clinic dental work for school children is done at cost. Service has been given to 52 children representing 11 communities. Seal money made it possible.

SNOW STOPPED SERVICE— OPERATORS TOOK DAY OFF

It snowed in New Orleans one day in the early '80's, and as a result it was impossible to get a telephone number throughout all the city.

In those days boys instead of girls served as operators. The unusual sight of a heavy snowfall kept the boys' eyes gazing out of the windows, and when a snowball fight started next door to the telephone exchange it proved too great a temptation. Of one accord the boys left the switchboard and joined in the fray. And New Orleans had to wait until the fight was over before use of the telephone could be resumed.

At that time six boys were sufficient to serve New Orleans at the telephone switchboard. Now there are over 55,000 telephones in the city, and it takes over 1,000 girls to handle the switchboards.

Dispatches say Chicagoans drinking bootleg whiskey are imbibing formaldehyde, used to embalm the dead, and are gradually picking themselves. Lot was turned into salt for disobeying the law, and if Chicago wants to become a city of pickled stiffs, it's up to them.

America is Safe with "Bull" Durham

A gang of Scientists left on a Boat for a year's cruise to study queer kind of Fish in the South Atlantic Ocean. They should have stayed here in New York and went to see and hear what I did the other day, a real Red Bolshevik meeting. They would have seen queer looking Fish there, Suckers, Eels, Flounders, Bullheads, and every Guy that got up was a big mouth Bass. They denounced everything in America, The Weather, The Constitution, White Gloves for Pall Bearers, Mah Jongg, Lower Taxes, Suspenders, Cross Word Puzzles, Shower Baths, League of Nations and Ice Cream Pies. After looking them all over I found what was the matter with them. There wasn't a one of them knew enough to roll his own. How are you going to improve on a Government if you don't know that much. Every man you see pouring "Bull" Durham into his paper, you can bet he is satisfied with America, because its the old right down to earth Americans that do it.

Wile Rogers P. S. There is going to be another piece in this paper soon. Look for it.
