

When You Trade Your Car...

Ford owners are continually being approached by automobile salesmen who wish to "accept" Fords as part payment on more expensive cars.

It is perfectly logical that automobile dealers everywhere should be eager to trade with Ford owners. The Ford is the most popular automobile in the world. No other used car is so easy to sell as a used Ford—because everyone has confidence in Ford quality.

And it is not expensive to re-condition, since Ford replacement parts are lowest in price.

Most automobiles carry greater discounts to dealers than the Ford—another reason why other dealers may offer the Ford owner a large trade-in allowance.

But when you come to buy a new car, bear these facts in mind:

The amount of trade-in allowance you can get is NOT the most important thing for you to consider. The big thing is the difference you have to pay. And remember that the higher priced car will not be so easy to dispose of when you come to trade it in.

If you wish to trade your Ford for a new automobile, stick to the car that you know will be dependable, useful and economical. Go to your Ford Dealer!

He will give you a fair and liberal allowance for your present Ford and will gladly arrange payment of the balance to suit your convenience.

When the deal is over, and you have your new and improved Ford, you will have the satisfaction of knowing positively that you took advantage of the greatest automobile value the world has ever seen—and saved a lot of money too.

SAVINGS AND LOAN AGENT DISAPPEARS

Oregon City, March 31.—C. P. Hendricks, local representative of a savings and loan association for some time has disappeared. He has not been at his office since Saturday. Although nothing definite is known of his financial affairs, those who have been in close touch with him intimate an investigation will be made.

Hendricks is said to have telephoned B. F. Lindas, local attorney, Tuesday evening, saying he was in Portland and would again communicate with Lindas today.

FARM REMINDERS

Oregon farmers who use the swill pail for feeding calves or who hang the pail on a post between feedings without washing it will soon be looking for a cure for calf scours, according to the experiment station. The dirty calf pail is one of the chief causes of scours. Pails washed thoroughly after each feeding and sterilized either with steam or scalding water and inverted in a clean and protected place until time to use them again will eliminate this factor as a cause of scours. Warm weather makes this precaution very necessary.

For persons who have not a sufficient acreage of legume hay there is still time to plant oats and Canadian field peas. In western Oregon the White Canadian variety has been very good, while in Eastern Oregon Carleton and Kaiser have been particularly good. In some farm sections like Douglas county and other southern counties, and also in some of the Snake River valley and the Columbia river valley sections where the elevation is low and the growing season hot, soybeans may be worth while.

Losses of sheep and lambs are prevented by avoiding areas infested with death camas, sometimes called "lobelia" in Oregon. All parts of the plants are poisonous especially the bulbs which are pulled up and eaten by the sheep. The experiment station recommends the eradication of death camas by digging the plants at flowering time.

The bulbs are carefully destroyed after digging, as they remain poisonous after death.

METHODIST CHURCH

Sunday School Easter Program: Part 1

"The Spring is the Easter of the Earth."

Song, "Joy to the World." Prayer, Rev. Rankin Easter Welcome, June Saunders An Easter Welcome, Phyllis Cary and Junior Cooke

CARD OF THANKS

We wish to express our sincere thanks for the many expressions of love, friendship and help extended to us in the loss of darling Clyde. Also for the many fine-wrapped tributes.

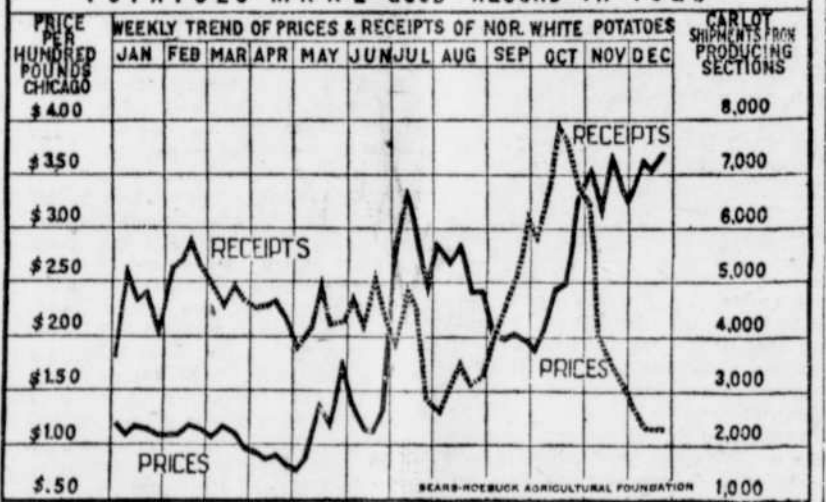

Mr. and Mrs. E. T. Davis and family. Mr. and Mrs. W. H. Holder.

SEES DOOM OF CHARLESTON

Chicago, March 24.(AP)—A silver lining is becoming visible in the cloud which has hung over dancers unable to learn the Charleston, says Maurie Rubens, composer of music for musical comedies here from New York.

"New York is already tiring of the ban-bang Charleston rhythm," he asserted. "I rewrote the entire score of a play I am now working on to get rid of this type of tune. People want tunes that do not leave them with headaches."

POTATOES MAKE GOOD RECORD IN 1925

POTATOES were a very profitable crop in 1925, according to a survey made by the Sears-Roebuck Agricultural Foundation. The acreage was the smallest since 1919 and the yield the lowest since 1917. Following four years of overproduction and very low prices, the 1925 season started off with a good price, which increased daily. The peak will be reached in spring shipments. The annual consumption of 3½ bushels per capita, including seed, is 370,000,000 bushels. The 1925 crop is estimated at 323,248,000 bushels or 46,757,000 bushels under normal consumption. The 1925 crop is 24 per cent less than the crop produced in 1924, but the ratio of consumable potatoes for the two years may vary still more in favor of the 1925 crop. With the acreage cut severely all over the country in 1925, the opening prices started out on a higher scale than the peak prices for 1924 and began to increase at digging time until they reached in some instances \$3.50 and \$4 per hundredweight at local shipping stations. Every grower should save seed for next spring, as all indications point to high-priced seed potatoes for 1926 with an exception that the acreage planted will be larger in 1926.

ALFRED E. CLARK (continued from page 5)

The slate or ticket made up and formed by them, would be rammed down the throats of the voters, willy-nilly.

Mr. Clark is unalterably opposed to the old "ward-heeler's caucus-convention system presided over by the self-appointed, self-appointed czars of the old "stand-patters." He has taken his stand in favor of the retention of this safe-guard of the people's franchise.

For this alone he is entitled to the support of every lover of political fair-play, every lover of the right and freedom to participate in the selection of candidates for office. In this stand which he has taken for the people the Old Guard has court martialed him for Les Majestty. He now appeals to you for your support that he may prevent a return to the old political corruption system of hand picking candidates for office by the self-delegated back-door method. He refuses to eat out of their hands, preferring defeat to betraying the trust of the people.

The Oregonian has repeatedly expressed a desire to return to the old caucus-convention system. The columns of the Eastern Clackamas News will be used to fight any and every attempt to so brazenly and shamelessly deprive the people of their God-given right to select whom they may desire to represent them in office. Mr. Clark should represent the Republican party. No man who consents to or acquiesces in the wish of the few who desire the repeal of the Primary law, will represent the real republican voter.

NEW STAR SIX SETS RECORD

Oakland, March 31.—Fremont peak, a grade near Hollister, Cal., that has until now defied all efforts of automobile drivers to reach its summit in high gear, has been climbed by the new Star six, according to a telegram received by the Durant Motor Co., of California. The grade, 12 miles in length, was driven by T. E. Messer, Hollister Star dealer, and the trip was made under the observation of M. F. Hoyle, newspaper publisher of

LIBERTY THEATRE PROGRAM

Saturday, Sunday April 3-4
THE DEMON
A good clean Western picture. A Universal.

Monday & Tuesday, April 5-6
WHEN HUSBANDS FLIRT
Remember 'Stepping Out?' This show is almost the same so if you want to laugh, come out.

Wednesday & Thursday, April 7-8
THE CROWDED HOUR
A very good show. Something a little different.

Saturday & Sunday, April 10-11
LORINE OF THE LIONS
Fill them to suit yourself.

Hollister. According to Messer, the Star six used was strictly stock, and the grade was climbed without difficulty.

The British government has barred Prince Carol from residence in England. Remembering the countess of Cathcart case, and the flight of the Earl of Craven, one concludes that what all these folk need is a country of their very own—"somewhere east of Suez."—Oregonian.

ELIMINATE RADIO "HOWLER"

London, March 24. (AP)—The Evening Standard says that, after three years of research, Sir Oliver Lodge, the eminent scientist, has solved the problem of the wireless "howler" or oscillator, which has baffled experts throughout the world.

Briefly, the paper says, the discovery will insure perfect reception without ariel tuning, thus avoiding the use of regeneration. It will not add to the cost of new sets, but will mean the alteration of existing receivers.

Sir Oliver expects to publish the results of his activities soon.—Spokesman-Review.
