The political atmosphere seems to be clearing up to such an extent that it is possible now to see thru the haze and reach some conclusion as to the result of the primary election in the nomination of U. It Costs Less to Own a Better Buick

Gasoline, lubrication, water and fair treatment are all the Better Buick needs to deliver its mileage at astonishingly low cost.

The Valve-in-Head engine, as Buick builds it, develops more power from a given quantity of gasoline. Buick Automatic Heat Control, an integral part of the Buick carburetor, still further aids fuel economy, by super-efficient carburetion.

In no other car, regardless of price, will you find the completeness of protection for performance afforded by the Buick "Sealed Chassis" and "Triple-Sealed Engine." Dirt cannot get in, anywhere, to cause wear, looseness and vibration.

To know what motor car economy really is, for finer transportation at lower cost, own a Better Buick.
