Greater Clackamas Union of Clubs Meeting May 14

The Greater Clackamas Union of Clubs will meet at Molalla, Friday May 14, in the new Union high school building, which has few equals in the state. The usual reports of the committees and communities will be heard.

The speaker of the evening will be Norman F. Coleman, president of Reed College, Portland. Mr. Coleman did educational work among the soldiers overseas, has had a great deal of experience in organizing, and will give a message along the lines of co-operation.

An excellent dinner is being prepared by the Clackamas county Farm Bureau, Molalla Commercial club, and the Firemen of Molalla. The Farm Bureau and Commercial club are to furnish the farm products, the best of vegetables, butter, cream, etc., and the Firemen who also will put on the Round-up at Molalla on July 3, 4, and 5, will act as waiters. They will be dressed in their Round-up clothes, white shirts with neat black trimmings.

Dinner is to be served in the gymnasium of the school. Everyone in Molalla is working to make this a pleasant meeting, and have everyone see their fine school and the firemen have donated lumber for the necessary benches and tables and the students of the school are constructing them under the supervision of the manual training teacher. More than 300 seats are being provided.

During the dinner or right after introductions are to take place, in the gym. On account of the large crowd that is expected, those present will be introduced by committees, some one from each community doing the job for his community in a brief and snappy manner to save time. The entertainment committee has been besieged by aspirants for office for an opportunity to get on the program, but the committee has stood pat and will allow no one to talk politics or issues that evening. However, any office seeker will be welcome to attend the meeting and will be introduced in the same order as the others.

After dinner the crowd will go into the auditorium, which is a very fine one and has seating capacity of 750, and the business meeting will take place. The musical program will be mixed with the business. Also students of the high school will take part in it. This school won the silver cup at Forest Grove for class B in schools up to 500 attendance.

The meeting is called at 6:30 p.m. All are urged to be early and go through the high school. It is the only school in the country that has the Smith-Hughes system and teachers and students will be on hand to show all through it.

Those planning to attend should notify W. W. Everhart, Molalla. Dinner will be ready at 6:30 sharp and all are urged to be on hand ON TIME.

NEW AUTO PARK WILL BE OPENED MAY 7

Other ways rough but passable, the road towards Cazadero, keeping to the left, and the Garfield Garage hall road, reaching the park by entering the gate at the mail box. NEW PARCEL POST RATES

The National Grange is making a strong appeal to its subordinate branches, throughout the country to be on guard against the grave danger to the future of the parcels post system, that now appears to threaten at Washington. The joint postal committee which is at work on changing the law relative to postal rates is charged by the Grange with having very little sympathy towards any effort to increase the use or efficiency of the parcels post system, and therefore the Grange influence everywhere is being mobilized to force the most favorable possible action at Washington as new schedules of rates are being framed.

The Grange insists that the absolutely indefensible flat increase of two cents per package, which was passed last year, be taken off the back of the parcels post system and in this demand Granges everywhere are forcibly united. This two-cent increase penalizes all small packages and short hauls and strikes a serious blow at the efficiency of the whole system.

The Grange is also demanding a thorough reorganization of this whole branch of the post office department, particularly to the extent of putting a competent business manager in the parcels post service, providing an equitable basis of parcels post rates and then making the latter service actively function in competition for business, all in the interests of the general public. The response of the Granges in all sections to this National Grange program is very hearty and in consequence tremendous pressure is being exerted at Washington.
