

MUSSOLINI CRITIC GETS PRISON TERM

Florence, Italy, May 2.—The first woman to be convicted under the law making it a criminal offense to utter derogatory remarks about Premier Mussolini, is Malvina Fregioli. She has been condemned to serve eight months in prison.

Rome, May, 2.—The preliminary examination by a magistrate in the case of John Adams Abbott, member of a noted Boston family, who is in prison charged by a Roman guide, Astrologo, with having assaulted him, and insulted Premier Mussolini, began this morning. The attorney-general presented the depositions of the plaintiff and two witnesses.

Abbott and Astrologo got into an altercation several days ago and Abbott soundly thrashed the guide,

whose friends called carabinieri. Abbott was taken to jail and immediately accused of having used derogatory language against Mussolini. He has been in jail since, notwithstanding the efforts of the American consulate to have him freed.

Abbott's side of the case will be heard tomorrow, after which a decision will be given.—Oregonian.

STANFIELD WORKING FOR REFUND OF TAX
His Influence as Chairman of Public Lands Committee is Big Boost for Return of \$4,907,000 to 18 Western Oregon Counties.

The fact that United States Senator Robert N. Stanfield is chairman of the senate committee on public lands is the principal ground for the belief that his bill for the payment of \$4,907,000 of lost O. & C. land grant taxes to 18 western Oregon counties has a chance to pass the senate. The bill, which benefits the entire state, is now before the committee and in his charge.

A new senator would be barred by the senate's iron-clad seniority rule from holding such a powerful chairmanship, and therefore, would be unable to advance such legislation through the committee and pass it in the senate.

Immediate payments will be made to the 18 counties if the bill passes, in the following amounts: Benton, \$230,000; Clackamas, \$347,000; Columbia, \$111,000; Coos, \$422,000; Curry, \$22,000; Douglas, \$1,085,000; Jackson, \$756,000; Josephine, \$379,000; Lincoln, \$22,000; Lane, \$926,000; Linn, \$129,000; Marion, \$10,000; Multnomah, \$38,000; Polk, \$165,000; Tillamook, \$30,000; Yamhill, \$50,000; Washington, \$50,000; Klamath, \$135,000.

The Stanfield bill further provides for the annual payment hereafter of nearly \$500,000, an amount equal to the taxes that would have been paid to the counties annually by the railroad company on the O. & C. grant lands.

THE STRIKE

Britain's coal strike is one of the most serious things that has happened since the World war. It creates disquiet almost in as great proportion as the Locarno pact created hope. As an outburst between employers and workers in a dominant industry it more than discounts the reassurance created by the recent compact of peace between employers and workers in the British ship-building industry.

It brings to a pause that improvement in Britain's unemployment problem noted in the past 15 months and adds some 5,000,000 voluntarily idle persons to millions who had subsisted on a dole which meant the division of products of those who had work with those who had not.

While the resources of Britain's government, her statesmen, her soldiers, her students, her munitions, her reserves of supplies and her transportation all are involved, either by paralysis or concentration in a domestic emergency, Germany may find her best opportunity since the World war for economic assertion. Already the productive energy of Germany has been so well reestablished that reparation payments tak but two hours of each worker's 48-hour week. Germany's income last year was 85 billion marks. The standard reparations payments which begin in 1928-29, demand 2,500,000,000 reichsmarks, or less than 5 per cent of the annual income.

It is a strange Europe that the sun dawns upon. In Italy is Mussolini, who would wear the crown of Caesar and perhaps wield his sword. In France is the pending settlement which involves the value of the franc and the financial stability of the nation. In Russia under the burden of brutality and ignorance patient, toiling producers seem to be producing a more tolerable state. In Britain is war, the kind of war that is, perhaps, of even more moment than the conflict between nations, since it involves the terrific problem of class adjustments and human relationships. In the essence, of course, it is the assertion of people who are ambi-

tious for a higher standard of living and a larger share of the products of their toil.

But it is a tedious and toilsome path, and it is hedged with fearful possibilities.—Journal.

Our prohibition friends need have no fear or apprehension of any change of the prohibition law, as it will have to be amended in the same manner it was created. It is part of the organic law of the nation and can only be changed by the several states voting on the question. Congress can only act on an amendment which has to be submitted to all of the states.

The rains of this week have been of inestimable value to the agricultural and dairy interests of Clackamas county and in fact the whole state. It has also lent great pro-

It Costs Less to Own a Better Buick

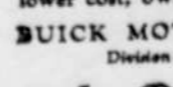

Gasoline, lubrication, water and fair treatment are all the Better Buick needs to deliver its mileage at astonishingly low cost.

The Valve-in-Head engine, as Buick builds it, develops more power from a given quantity of gasoline. Buick Automatic Heat Control, an integral part of the Buick carburetor, still further aids fuel economy, by super-efficient carburetion.

In no other car, regardless of price, will you find the completeness of protection for performance afforded by the Buick "Sealed Chassis" and "Triple-Sealed Engine." Dirt cannot get in, anywhere, to cause wear, looseness and vibration.

To know what motor car economy really is, for finer transportation at lower cost, own a Better Buick.

The BULL'S EYE
Editor and General Manager WILL ROGERS

Another "Bull" Durham advertisement by Will Rogers, Ziegfeld Follies and screen star, and leading American humorist. More coming. Watch for them.

Congress No. 1

I went to Washington the other day. I visited "The House of Representatives," they were in session. What I mean by being in session, the tax bill was up for debate and they were arguing on "Better Golf courses for the medium salaried man." I suppose if the World Court bill had been up, they would have been talking on "Shall America park oblong or parallel."

Well, then I went over to the Senate. They had adjourned, so I felt that America was not having such a bad day at that. We were only 50 percent inefficient THAT DAY.

You know we all joke and kid about Congress, but we can't improve on them. No matter who we elect, he is just as bad as the one he replaced. So with all their faults we love 'em. They are as good as the people who vote to put them there, and they are 10 times better than the ones who don't vote at all. They are like "Bull" Durham, they are not perfect, but they are the best in their line.

Will Rogers P.S. There will be another piece in this paper soon. Look for it.
