

**SPECIAL SCHOOL MEETING**

Notice is hereby given to the Legal Voters of School District No. 108, Clackamas County, Oregon, that a Special Meeting of the said district will be held at the High School, Estacada, Oregon, on the 24th day of May, 1926, at 7:30 p.m., for the following objects:

To decide whether the following described property, to-wit: Block 25 First Addition to Estacada, also Block 5, the West half of Block 8 and the East half of Block 9 all in Zobrist Addition to Estacada, together with that portion of Currin street lying between said last described blocks, also that portion of Seventh street lying South of the West half of Block 8 and East half of Block 9, also the intersection of said Seventh and Currin streets, now owned by School District No. 108, shall be transferred to a Union High School District upon the formation of same, which said Union High School District shall include School District No. 108, upon the terms that said Union High School shall assume and pay the outstanding bonded indebtedness of the said School District No. 108 in the sum of \$20,000.00 and interest thereon.

Provided that School District No. 108 reserves the right to the use of the athletic field in connection with the high school.

Dated this 10th day of May, 1926.

A. G. AMES  
Chairman Board of Directors.  
Attest: Wm. DALE, Clerk.

W. A. Proctor

Candidate for Republican Nomination for

**COUNTY COMMISSIONER**

Primary election May 21, 1926.

"I will give the affairs of Clackamas county my Careful Attention."

**Notes and Comment**

By Chad Alton

Coast cedar shingle manufacturers are warned at the falling off in demand for their product owing to the many patent roofing materials being placed on the market. But cedar can be put to many useful purposes.

"Broadway Eve," a New York dancing maiden was taken into cus-

tody by the police on a charge of the scantiness of dress, in her public appearances. The lady herself testified that she wore during her dance a long wig, a dancer's belt, a brassiere and a fig leaf. But lynx-eyed policemen swore they could distinguish no fig leaf.

The folly and waste of a general strike is shown by the cost of that just called off in England. After about ten days duration nothing was gained by the strikers and the saddling upon themselves the enormous cost of one billion seven hundred million dollars, which sum must come from their own pockets in increased taxes, was a pretty high price to pay.

Anyway, we make of coal an expensive necessity. We mine it from underground by expensive methods, and transport the bulky stuff to other points and the successive handlings add much to the cost. When we shall utilize that at the source of production and turn it into electricity carried by wire, we begin to realize what a waste the present method is.

If the alien crooks were cleared out of this country we should hear much less of crime. There are hundreds of thousands of them in the country, as the names of those arrested indicates who are bootleggers, hold-up men and offenders of all sorts. A bill before Congress to deport all these should hasten of passage and then put into use.

The calling off of the general strike in England means that the government will continue paying to the coal miners a subsidy. That is, one hundred and forty million dollars must be paid by the people to help private interests. How do the tax payers like that and how long will they stand for it?

Advocates of government ownership and control of coal mines and other industries would do well to study the history of the Ford Motor Company. No hired government officials depending on political pull would ever accomplish the success that has placed Henry Ford as the world's greatest industrialist.

The European continent is in something of a ferment. An attempted revolution in England, a successful one in Poland, rumors of the Hohenzollerns again coming into power in Germany, the Spanish-French-Riff war again active and fighting in ancient Damascus, points to the fact that the dove of peace is not nesting with our neighbors overseas.

Some sort of a crazy idea has been submitted to the League of Nations by a Rumanian engineer that ought to be occasion for inquiring into his sanity. His scheme is to blast away the Aleutian Islands so as to allow the Japan currents and Pacific tides free access to the Arctic, declaring the warmer ocean waters would melt the Polar

ice cap. Otherwise, he says, the United States should be made to pay an indemnity to Europe for keeping it cold up there. Perhaps the engineer has it in mind that his plan be carried out the pole would be a handy place to tie the Lizzies of tourists to.

Predict I. L. Patterson As Republican Nominee

Portland, Ore., May 13, (Special)—Senator I. L. Patterson will be the Republican party nominee for Governor. Such is the general prediction being made here by Republican and Democratic leaders alike.

Incidentally it might be remarked in this connection that the splendid showing of strength made by Patterson leaves no doubt of his success at the general election and that fact has been a strong element in attracting all classes of Republicans to his standard.

A remarkable feature of the campaign of Senator Patterson is, that from the time of the announcement of his candidacy he has maintained a strong lead over his opponents.

It has been generally conceded all the while that he would emerge triumphant in the Willamette valley, the only difference of opinion being as to the size of the plurality and now that Seymour Jones has announced his support of Patterson it is prophesied that he will carry the Valley by a majority instead of a plurality.

It is also predicted that Mr. Patterson will carry Eastern Oregon.

The consensus of opinion throughout the state it that if nominated, Mr. Patterson would be stronger in the Fall election than in any other candidate. He, being a practical farmer, is in sympathy with the farmer's troubles, and will apply business methods for their relief.

Patterson is making the campaign on a platform of progressive and constructive principles, and making

an unqualified promise that he will reduce taxes, and that he will apply business principles to the administration of State affairs.—Paid Adv.

**MINT INDUSTRY GROWING FAST**

The growing of mint in Oregon is fast expanding and will no doubt become an important industry in favored sections. In 1925 there were only about 250 producing acres in the state, while this spring about 2000 additional acres have been planted.

There has been considerable inquiry of the State Market Agent for information regarding this crop and the following has been obtained from various sources:

The cost of roots is about \$25 per acre, and the cost of transportation and planting from \$6 to \$8 an acre. The first year's cultivating and harvesting will cost about \$40 more per acre, while the second and succeeding years, the cost will be less than one-half of the first year. The average quantity of oil per acre is 50 pounds, although as high as 80 and 90 pounds have been produced in Marion county. Much care of the crop is required the first year to keep it from all weeds.

For the past fifteen years mint oils have averaged about \$3 per pound, leaving out the war peak when the price went to \$10 and last year when it reached the \$30 mark. Many growers have contracted their oil for the coming three years for \$4, \$5, and \$6 per pound. A few contracts have been made at somewhat better prices, but the quantity contracted for was small.

Successful growers state that mint is easily grown and is a profitable crop on the right kind of soil, peaver dam and swamp soils. Notwithstanding the high nitrogen content of these soils there is sometimes lack of plant food during the period of rapid growth, and nitrate of soda, 50 to 150 pounds to the acre, distributed and cultivated in before the tops have made, too much growth, have been profitable.

**GREATEST AMERICAN CO-OP.**

When the Tri-State Co-Operative Creamery Association of Iowa, Minnesota and Wisconsin is completed

this organization will be the biggest co-operative in America. There will be 20,000 farmers in the merger and the butter crop will total and annual business of \$75,000,000. The association will have a mammoth plant in Minneapolis, costing \$300,000.

**Fred J. Tooze**

**Republican Candidate for Superintendent of Public Instruction**

Endorsed by thousands of leading citizens over the entire state. Urges uniform textbooks for entire state and will co-operate with ALL schools, teachers and patrons in educational welfare.

—Pleas compare his statement in Candidate's Pamphlet with those of his opponents.

If you want a school superintendent who is under no obligations to any political machine, clique or individual and thoroughly trained in Normal College and University, experienced and successful in Rural, Village and City schools,

**Vote for Fred J. Tooze**

**REPUBLICAN CANDIDATE**

Owing to many other events the Community club has postponed its regular meeting this month. Watch for the announcement for the June meeting.

The I.O.O.F. band will stage another dance at the Gem theater building on Main street this Saturday.

Trough the Grange bulletin the Progressives are being asked to write the name of C. E. Spence for member of Congress First district on the Democratic ticket and be sure to put a cross before the name when writing it on the ticket.

Mr. Hearing, State Game warden, arrested three men on Tuesday and brought them before Justice of the Peace S. E. Wooster. They were charged with hooking salmon in the Willamette unlawfully but pleaded not guilty. They are out on \$100 bail each, and will be tried later.

Nearest member of the Holsum family

**Alfred E. Clark of Portland**  
Candidate for the Republican Nomination for the United States Senate

Read a few of the many unsolicited press comments—

THE Portland Daily News, speaking of the Senatorial candidates, said:

"If we were entirely business-like in the conduct of our public affairs intent only upon getting the best man available for the money, there is no doubt whom we would employ.

"We would employ a man of proved achievement, proved honesty, proved fearlessness and trustworthiness. We would employ a big man."

"And that man is Alfred E. Clark of Portland."

The TOLEDO LEADER: "Mr. Clark is a man who has had a world of experience, has the age, the dignity and ability to represent the people of this great state in the national law making body as they should be represented."

The EASTERN CLACKAMAS NEWS: "There are few men in the state who are as well qualified for Senator as Mr. Clark."

The CONDON TIMES: His (Mr. Clark) knowledge of public affairs, his prominence as a lawyer and his reputation as a speaker will prove valuable assets should the people desire to send him to Washington.
