Date Set for Meeting of Greater Clackamas Union

Saturday evening, July 10, is the date set for the Estacada meeting of the Greater Clackamas Union of clubs, which is being looked forward to with a great deal of anticipation by local club members. Invitations are going out this week to all organizations in the county, and it is expected that the attendance will exceed that of all other meetings of the county-wide association. A committee was appointed at the special meeting on Monday June 14, to arrange for the printing of the programs.

Both the dinner and the meeting will be held in the Estacada park. As a novelty the dinner will be served in the open air.

The paving of the road between Carver and Barton has progressed to such an extent that it will be possible to get through without detour to the place of this meeting at Estacada.

July 10 is the anniversary meeting and a large attendance is assured, so it is up to the people of Estacada to make this one of the best meetings of the year.

"TRAFFIC TOWER" PUBLISHED BY BOB COOK MOTOR CO.

A very interesting little magazine called the "Traffic Tower," is being published by Bob Cooke Motor Co., local Goodrich tire dealer, and the first issue is being distributed now to car owners throughout the community.

The contents of the magazine are devoted to subjects interesting to motorists—touring advice, hints on the care of tires and care in driving for the sake of greater motoring safety.

Two very humorous stories give the reader fifteen minutes of amusement. One of these stories, "How to Enjoy Jaywalking," is filled with hints to the pedestrian advising him how he can conduct himself in crossing the street to jangle the nerves of motorists.

Bob Cooke says he is planning to release three more issues of the "Traffic Tower" during the summer.

PRESBYTERIAN YOUNG PEOPLE TO CONVENE AT HILLOCKBURN

Hillockburn, Estacada, will be the location of an important conference of the Presbyterian young people from all parts of this section, to continue for a full week, June 21 until June 27.

The leader of this conference will be Rev. Craig G. Whitsitt. Rev. Whitsitt is student pastor at the University of Washington. He conducted a conference last year and has made a remarkable record among the Presbyterian students at the University.

This is one of the nearly 60 such gatherings of Presbyterian young people to be held under the direction of the Presbyterian church in various parts of the country this summer. Last year 6,500 young people gathered in these conferences for a week of study of the Bible, missionary activities, church government, methods of conducting Sunday school classes, young people's societies, and similar subjects.

The faculty at this conference will be composed of men and women who have had experience in leading young people and in teaching the subjects assigned.

These summer conferences constitute only one phase of work done for young people by the Presbyterian church. This work is under the Presbyterian Board of Christian Education, also has general supervision over the 56 Presbyterian colleges, and religious work in 30 state universities. The Board loans money to young men and women to help them obtain an education. Many of these plan to be missionaries and ministers.

This work of Christian education is attracting enlarged interest over the country. Last year the contributions from churches for this cause was nearly 12 per cent greater than in the year previous. The Board stimulates better Sunday schools and publishes Sunday school literature for the 10,000 schools of the denomination.

Fruit Producers See A Prosperous Year

Brokers in the East have pronounced the fruit raised in this vicinity to be of the very best, and J. G. Hayman, who handles the fruit at the Estacada cannery has pronounced this to be one of the most prosperous years that the fruit producers in this district have ever seen.

Libby, McNeil & Libby, one of the largest fruit concerns on the coast takes all the fruit handled through the Estacada cannery by Mr. Hayman. It is shipped by truck to The Dalles.

Estacada and vicinity pride themselves in the first class small fruit of all kinds that is raised here. The local cannery is exceedingly busy from the time the fruit season starts with the sale of strawberries until it ends with the last sale of prunes. There are approximately 1500 tons of green prunes raised in this vicinity.

The evergreen blackberries as well as other fruit extensively raised here afford the school children a method of earning money before school opens in the fall.

Royal Anne cherries excel as to quality those raised in other sections. Twenty tons have been contracted for by the Estacada cannery.

There is a ready market for the fruit from this district because of the good roads. It can be shipped easily.
