ASK ABOUT THE A B C PLAN

COOKE MOTOR CO.

salt to each quart of water, heat this solution to the boiling point, put in strips of aluminum or bright zinc, add the tarnished silver and boil it. Silver must be covered completely by the water and each piece must be in contact with the aluminum or zinc, either directly or through other silver. When the tarnish has disappeared the silver should be removed from the kettle, washed and dried with a clean, soft cloth.

Milk Stains

In removing milk stains use cold or lukewarm water first, sponging carefully if the garment cannot be laundered. This removes the protein, which hot water coagulates and sets. Afterwards follow with hot water and soap on washable materials, or with chloroform, gasoline, carbon tetrachloride or some other grease solvent if laundering would injure the fabric.

When you have an afternoon party and want to serve baking powder biscuits, cut the biscuit dough into very small rounds. Moisten the top of one biscuit with a little rich milk and place a second biscuit on top of it. When baked these tea biscuits are attractive in shape, easy to open and delicious spread with butter or served with honey or preserves.

NOTICE TO CREDITORS

In the County Court of the State of Oregon for Clackamas County. In the matter of the estate of Philip M. Wagner, deceased.

Notice is hereby given that the undersigned, George K. Armstrong and H. B. Davis, have been appointed administrators of the estate of Philip M. Wagner, deceased, and have filed their bonds and qualified as such administrators. All persons having claims against said estate are hereby notified to present the same, duly verified as by law required to the undersigned, George K. Armstrong and H. B. Davis, or either of them, at Estacada, Oregon, or to their attorney, W. S. U'Ren, 515 Oregonian Building, Portland, Oregon.

Dated and first published January 6, 1927. Last publication February 2, 1927.

GEORGE K. ARMSTRONG,
H. B. DAVIS,
Administrators.

W. S. U'REN,
Attorney.

NOTICE FOR PUBLICATION

WALTER L. TOOZE, Sr.,
Register.

NOTICE OF CONTEST

DEPARTMENT OF THE INTERIOR
United States Land Office.

Portland, Oregon, January 3 1927.
To heirs of Stephen Twarowski, deceased, of Colton, Oregon, Contestee:

You are hereby notified that William Bittner, who gives Colton, Oregon, as his post office address, did on December 31, 1926, file in this office his duly corroborated application to contest and secure the cancellation of your Homestead Entry No. 07162, Serial No. 07162, made January 23, 1922, by Stephen Twarowski, who died June 21, 1926, for NE 1/4 of NW 1/4, Section 25, Township 4 South, Range 3 East, Willamette Meridian, and as grounds for his contest he alleges that said Stephen Twarowski died in the State of Oregon on or about the 21st day of June, 1926; that he never made settlement on said land or resided

thereon before he made said entry; that he never resided on said land or cultivated or improved said land except to make a foundation for a cabin; that he did not comply with the law so as to entitle him to a patent for said land; that his heirs are unknown and their places of residence are unknown to contestant and after due and diligent search and inquiry said heirs or their places of residence cannot be found by him; that none of said heirs has ever resided on said land or improved it or cultivated any part thereof, and they have wholly abandoned said land for more than six months immediately preceding the beginning of this contest.

You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be canceled without further right to be heard, either before this

office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically responding to these allegations of contest, together with due proof that you have served a copy of your answer on the said contestant, either in person or by registered mail.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.

WALTER L. TOOZE, Sr.,
Register.
Date of first publication January 15, 1927.

Date of second publication January 30, 1927.

Date of third publication January 27, 1927.

Date of fourth publication February 3, 1927.

CUTS MORE SLICES TO THE LOAF

The same Holsum quality that won the Harry M. Freer Trophy the second time in two years. The same price as the regular large loaf.

Sold at Your Favorite Grocery and Restaurants in Estacada and Vicinity.

HOLSUM LONGLOAF
Nearest member of the Holsum family

MUST BE NATIONWIDE

State Market Agent Spence thinks that cooperative marketing will have to become nation-wide in organization and scope before farmers will get the benefits they are working and hoping for, and he sees this end in the rapid advance of local and state organizations throughout the country. "In some sections of the country," said Mr. Spence, "producers are strongly organized to handle a particular product, potatoes, wheat, fruit, etc., while in other sections raising the same products the growers are not organized. The result of this condition is that the unorganized sections prevent the organized cooperatives from getting results. There is hardly an industry or branch of labor in the nation that is not powerfully organized and the results are high wages for union labor and unparalleled prosperity for industrial concerns, while the farming industry is going backward instead of ahead." Mr. Spence thinks that cooperative marketing will greatly help farmers when the farmers organize themselves as labor and manufacturing industries do, and only then. "When farmers will control the marketing and transportation of their products—when they will take their goods all the way from the farms to the retail centers and eliminate much of the two-thirds added middle expenses and profits—then will cooperative marketing be a success."

GOOD PORK

Hogs weighing between 180 and 230 pounds will ordinarily produce the best and most economical cuts of meat for family use. Hams and shoulders from such hogs will weigh 12 to 15 pounds, with loins and bacon strips at about 9 or 10 pounds. If the pig has been well fattened, not only will he produce more lard, but also the flavor of the meat will be improved. If the pig is given a 24-hour fast before slaughter, with plenty of water available, the carcass will drain more thoroughly and produce a better product.

"INSIDE" INFORMATION

Pasteurizing

Milk and cream for ordinary use or milk for babies may be successfully pasteurized at home. The process is not difficult and requires only simple equipment. Farmer's bulletin 1359 entitled "Milk and Its Uses in the Home" gives a full description of the method and equipment.

Balky Waffles

An electric waffle iron should never be greased. If your waffles stick perhaps you have not put enough melted butter or other shortening into the batter. One or two extra tablespoons of melted shortening in the batter will often prevent sticking. Also when the waffle is brown and crisp and ready to take out of the iron, thrust a fork firmly into it and lift the waffle straight up. If you work around the edges with a knife attempting to loosen it in that way the waffle will break and be almost impossible to get out whole.

Tarnish

Tarnish on silver can be removed by the electrolytic method. Various commercial devices for this can be bought for use at home or it can be done in the following way: Fill an enameled or agateware kettle partly full of water in which has been dissolved 1 teaspoon of either washing soda or baking soda and 1 teaspoon

SOY BEAN NOW BIG CROP

The soy bean acreage in this country increased from less than 500,000 acres in 1917 to about 2,200,000 acres in 1924, says the United States Department of Agriculture. The product of 1,000,000 acres was used for hay, that of 700,000 acres for pasture and ensilage, and 500,000 acres was used for seed. This increase in acreage is largely due to the development of better adapted varieties. The total value of the soy bean crop in 1924, the last year for which data are available, was \$18,360,000, and of this value the new varieties were responsible for a little more than half.

CROPS AND MEAT

Without fertile soil and good crops the livestock industry would not flourish, says the United States Department of Agriculture. Corn, clover and alfalfa are of great importance in the production of our meat supply. Eighty-nine per cent of the corn crop is used in the production of livestock, whereas only 11 per cent goes for human food and other purposes. Approximately 50 per cent of the sustenance of the livestock of this country comes from pasture, 25 per cent from corn, and the rest from harvested feeds. Legumes in the rotation help to maintain the fertility of the soil and result in high corn yields.

INTERESTING WHEAT ITEMS

An elevator in Warren, Minn., received a sample of wheat that tested 14.75 per cent protein. The farmer who grew it received 30 cents more per bushel for it than did the farmer with the usual 10 per cent protein, as Minnesota wheat is bought on its protein content. The farmer who produced this high protein wheat followed the crop with extensive croppings of sweet clover.

The farmers wheat pools of Western Canada last year turned over a business of \$271,000.00, and this immense business was handled entirely by working farmers.
