A masterly example of the coachmaker's art, the Chevrolet Sedan with its Body by Fisher reveals a distinction usually found only on the costliest custom-built creations. It is literally true that no four-door enclosed car, priced so low, ever exhibited such marvelous beauty of line and color.

It is finished in rich Marine Blue Duco, gold striped, and its handsome proportions are emphasized by new full-crown one-piece fenders and bullet-type lamps. In addition it offers the host of improvements which helped make the Most Beautiful Chevrolet the greatest sensation of America's greatest industry. AC air cleaner, AC oil filter, large 17-inch steering wheel, new frame-mounted tire carrier, gasoline gauge and many, many others.

Come in! You need only to see this new supremely beautiful and mechanically finer sedan to realize what amazing value it represents at its greatly reduced price.
