the Lower Columbia River where Captain Robert Gray entered on his famous voyage of discovery one hundred and sixteen years ago; they will be housed on the site of old Fort Astor, within gunshot of old Fort Clatsop where Lewis and Clark wintered during 1805-6 while their main diversions will be along the Clatsop beaches where these explorers boiled sea water to secure salt for their expeditions. The famous Astoria Column above Astoria with etched picturization of early-day history is to be opened and ready for inspection of delegates.

A score of Astoria business men and leading men and women of the historic city have been working for months in preparation for the 6000 or more visitors who are expected to attend the convention from every section of Oregon. State Senator A. W. Norblad, chairman of the Convention Publicity Committee, has made special arrangements with the salmon cannery heads for the privilege of permitting delegates to witness the packing of King Chinook salmon and inspecting the fishing boats, gear and hauls. Many of the lodge drills and entertainments are, by special arrangement, to be held in one of the great piers of the Port of Astoria Terminals directly over the Columbia River.

**It's Really True**

that now you can do all kinds of cooking—roasting, baking, frying and boiling—on ordinary lamp socket electricity.

**Uses Less Current than a Toaster**

Great strides have been made in the development of electric cooking. No longer is it necessary to go to the expense of having your house rewired for heavy current. You do not need an extra meter. No costly installation.

The Swartzbaugh laboratories have developed the wonderful burn-out-proof, drum type, Everhot element that makes cooking easier—that saves time—that makes all kinds of cooking possible on ordinary home current—that makes electricity really economical to cook with. Draws less current than a toaster. You'll hardly notice it in your electric bill.

Clean, convenient, dependable and now economical electric cooking

Tens of thousands in use. Approved by Good Housekeeping Institute and cooking and electric authorities everywhere. Only tremendous production makes the low price possible.

You'll be delighted with what your new Everhot will do. Browns roasts—meat or fowl—crusty, tender and delicious. Cook soups, cereals, and stews for hours at very little cost and no attention. Steam and bake vegetables with all their true, rich, health-giving flavor and values retained. Bake the flakiest pastry—the finest bread—the lightest biscuits you ever have eaten. Surprise and delight the family with the best of cooking with less work. Draws less current than a toaster.

**Act Now.** Take advantage of this Free Offer. The offer will be withdrawn when our limited stock of Everhots is sold.

A genuine Everhot Electric Cooker—a marvelous thermal jar—an ice cream freezer (no current used)—all in one. Two heats—turn on high or low—cook fast or slow. Cook without watching or attention. Take with you on a picnic—when out touring. Keeps food hot or cold for hours without the use of current.

Fully equipped as illustrated, including instructions.

**ONLY \$ 14.<sup>05</sup>**

The Everhot cooker may be purchased on our deferred payment plan, \$2.05 down, balance \$2.00 a month.
