The farmer gets his extra hour of daylight in the summer not by moving the clock forward but by setting his alarm for an hour earlier in the morning.

THE MISSISSIPPI FLOOD

This city's civic pride will not suffer because of demands made upon it for a contribution to the Mississippi flood fund. Mrs. Moore and her associates have already raised a goodly sum toward the quota, and now Bob Marchbank of the Liberty theatre announces that he will stage a 100% benefit performance for the flood fund on May 31.

Every dollar taken in at the theatre on May 31 will go to the fund. Let's pack the house.

THE CLOSE OF SCHOOL

When you were a school boy, or school girl, a real letter day of the year was when school was dismissed for the summer vacation. It mattered not if you were one of the ones who like to go to school.

The suggestion which is sometimes made that the school year should be continuous and that the summer vacation, if granted at all, should be short, gets mighty little endorsement from those whom it would effect chiefly. Even the teachers we imagine would not wish to surrender the weeks of relaxation though it might mean a little more pay.

The average boy in the grades regards school as a species of punishment inflicted on him because he cannot help himself. It is the exception for the boy to hold himself to do more than will "get him by."

It is well that parents and school authorities have views somewhat at variance with the pupils, else school rooms would not be filled to the extent they are. Were it not so there would be longer vacations and shorter school terms.

OUR HISTORIES

Occasionally we hear something about the inadequacy or unfairness of the textbooks on history in our public schools. At various times different criticisms are offered but the principal one is to the effect that the history of important events on which our government is founded, is not always stated emphatically enough to impress the youthful mind with admiration and enthusiasm.

Immediately following the close of the war there was general criticism of our school histories. So sharp did this become that alterations were made in a great many histories to meet the popular demand.

Doubtless the situation has improved some but it still behooves our patriotic citizens to keep an eye on the way history is written for our public schools. There has been a marked increase in the volume of the so-called "liberal" movement during the past few years, although this movement is really anything but liberal.

To the average person this point may seem trivial at first. But if you will think back over your own school life for a moment, remembering how your youthful soul was thrilled with the story of Paul Revere and Nathan Hale, of Bunker Hill, and the early trials of Washington, Jackson and other heroes, you will come to realize how important a part these historical episodes had in forming your ideas of nationalism and patriotism.

Fortunately the liberals are not having things their own way. The patriotic people of the country are keeping in touch with the situation and they are receiving aid and assistance from fine organizations like the American Legion and the Daughters of the American Revolution.

HOME HINTS

Quality of bread is affected by evenness or unevenness of temperature throughout the process. For good bread an even temperature is maintained. Keeping dough in a pan of warm water through the rising will maintain an even temperature. When the water becomes cool warm water is added from time to time.

Remember, when you wash artificial silk or rayon underwear, that it is much weaker when wet. Launder it very carefully in lukewarm water, with soapuds, of neutral soap. Squeeze the garments—don't rub them—and rinse repeatedly until clean. Rough finger nails or rings tear wet artificial silk very easily. Never use clothespins when hanging these garments up. Just hang them carefully over a line. Iron with a medium-hot iron, never a very hot one.

Eat all the cherries you can during their short season, and then can the surplus for winter pies. Pit them, heat them in syrup, pack them hot, and then process in the water bath.

Juices from canned vegetables contain valuable nutrients and may be used in soup, with sauce or with vegetables.

Addition of a stalk of celery, a sprig of parsley and a clove of garlic to potatoes when they are boiling makes a broth that can be served as a soup course.

By the addition of salt to milk, as is done to vegetables, the flavor may be improved for those people who object to the flat taste of milk.

Tunnels or large holes in cakes are averted by not starting with too high temperature and not beating the batter too much.

Here are the fine points in frying potatoes: Use a heavy skillet; let the pieces brown on one side before turning them; and cook only enough at one time to cover the bottom of the skillet, in a fairly thin layer.

HIGH SCHOOL NOTES

The last baseball game of the season will be played on the home field with Gresham Friday.

The Freshman class entertained the Sophomores at a weiner roast last Thursday after school. The Junior class also had a weiner roast at Still's last Tuesday night.

Honey bees are not only valuable pollinators to cross fertilize the flower of our agricultural plants. This choicest sweets. They also serve as because they produce one of the brings larger crops. Our great fruit orchards need literally millions of bees for pollinators. It is possible for bee keepers nowadays to earn a bit of extra money by placing a few of their hives in the big commercial orchards during the flowering season. That brings the orchard man bigger fruit crops and also the bee keeper more honey and larger colonies.
