

WOMEN CAN NOW DO MORE

Because Lydia E. Pinkham's Vegetable Compound Keeps Them Well

Fifty years ago there were few occupations for women. Some taught school, some did housework, some found work to do at home and a few took up nursing.

Today there are very few occupations not open to women. Today they work in factories with hundreds of other women and girls. There are also women architects, lawyers, dentists, executives, and legislators. But all too often a woman wins her economic independence at the cost of her health.

Mrs. Elizabeth Chamberlain who works in the Unionall factory making overalls writes that she got "wonderful results" from taking Lydia E. Pinkham's Vegetable Compound. Mrs. Chamberlain lives at 500 Monmouth St., Trenton, N. J. She recommends the Vegetable Compound to her friends in the factory and will gladly answer any letters she gets from women asking about it.

If Lydia E. Pinkham's Vegetable Compound has helped other women, why shouldn't it help you?

Piano Never Shakes Off the Installments

Nowadays when one buys a new piano the old one must be disposed of. This is taken care of by the salesman who allow "liberal" prices for the old instruments in trade, accept a little cash and get the balance in weekly or monthly installments. But what do the salesmen do with the old pianos? Just this. They must find a market for them. Of course they must first repair and revarnish the old instruments, after which they are boxed and made ready for shipment. The greatest market for these "slightly used" pianos is said to be in South America, Africa, Asia and other parts of the world where they are sold to the natives who yearn for music and whose ambition it is to drum out tunes on an instrument all their own. The natives pay a small amount down and the rest in monthly payments extending over long periods. Thus it may be said that the whole life of a piano is just one installment after another.—Pathfinder Magazine.

Tanlac Relieves Many Ills

Health Ravaged by Bad Heart, Nervousness and Sour Stomach, Mrs. McLean Manages to Avert Disaster. Health and Strength Are Restored. Gains 30 Pounds.

"Take Tanlac—that is my advice to everybody, and it is from one who has tried it," says Mrs. Elizabeth McLean, 4171 Lincoln Ave., Oakland, Cal. "Four or five years ago I first used it, and ever since then have depended on it. Then I was afflicted generally—had to build up or give up entirely. My stomach was in an awful state, my heart bothered me and I could not eat. I was so weak and nervous, I kept losing weight and strength, my health seemed wrecked, nothing helped me.

"But six or eight bottles of Tanlac put me back in splendid condition. My stomach troubles gave way; I gained perfect digestion and with it an appetite hard to satisfy. I increased in weight from 120 to 158 pounds. Tanlac is my formula for good health. It is and always will be the best."

"Tanlac made of roots, herbs and barks, helps build up nervous, weak bodies, drive out causes of suffering and give the body good health.

"Don't suffer pain needlessly. Learn from others. Take wonderful Tanlac. At your druggist's.

Mayor Walker and a Bunch of Admirals

Mayor James J. Walker of New York surrounded on the steps of the city hall by the admirals and aides who arrived there with the fleet. The largest array of battle cruisers in history entered the Hudson river. The warships in the fleet numbered 113, and they carried more than 30,000 sailors and 2,227 officers. The men had a fine time ashore for some days. They and their vessels were fresh from the war maneuvers in the Caribbean sea.

Dynamiting the Levee Below New Orleans

This photograph, made at the instant of the explosion, shows the actual dynamiting of the Mississippi levee in St. Bernard parish when that and adjoining parishes were sacrificed to the flood waters of the Mississippi river to save the city of New Orleans. Afterward it was necessary to blast other openings in the dike and the operation was successful so far as New Orleans was concerned, but, of course, the farm and trapping lands between there and Lake Borgne were inundated and the loss there was considerable. All the inhabitants had been evacuated.

6 things to understand about used car allowances

- 1 When you trade-in your used car for a new car, you are after all making a purchase, not a sale. You are simply applying your present car as a credit toward the purchase price of the new car.
- 2 Your used car has only one fundamental basis of value; i. e., what the dealer who accepts it in trade can get for it in the used car market.
- 3 Your used car has seemingly different values because competitive dealers are bidding to sell you a new car.
- 4 The largest allowance is not necessarily the best deal for you. Sometimes it is; sometimes it is not.
- 5 An excessive allowance may mean that you are paying an excessive price for the new car in comparison with its real value.
- 6 First judge the merits of the new car in comparison with its price, including all delivery and finance charges. Then weigh any difference in allowance offered on your used car.

Dates and Titles of French Kings

Whether one believes that figures never lie or that they may be manipulated to mean almost anything, it is curious to find a writer in Les Mots Croises busying himself with pointing out the following coincidences:

Louis IX of France was born in 1215. If you take the trouble to add these four digits you will discover that the total, nine, just equals the figure in the king's title.

Charles VII, known as the Wise, came into the world in 1402. Addition discloses that the sum of your efforts will match Charles' number in the succession of his name.

Louis XIV began to reign in the year 1643 and this assuredly adds up to fourteen; he was seventy-seven years of age when he died and one gets fourteen points from the two sevens.
