Princess Now Surgeon

Princess Mary, only daughter of King George and wife of Viscount Lascelles, is now a "surgeon." She was admitted recently to the Royal College of Surgeons as an honorary fellow. She was the first woman ever to receive an honorary diploma. The princess, after the ceremony, donned a cap and gown and took a seat among the other fellows.

Most Powerful Antiseptic

The new formula is the strongest antiseptic known to chemists, and it is believed that its ability to kill bacteria may result in the prolongation of lives by twenty-five years or more.

Vitaglass in Greenhouse
To force an earlier start of his garden this year, W. Kerr Russell, M. B. D. S. of Edinburgh, planted seedlings under vitaglass in his greenhouse. He reported that the vitaglass plants germinated before the others and showed much taller and sturdier growth. Mr. Russell is part author of "Ultra-Violet Radiation and Actinotherapy." He suggests that greenhouses be equipped with vitaglass and that the glass would be especially adaptable in the raising of early strawberries.

The Health Fund
A health expert has just been talking about "overdrats on the health fund" so convincingly that one inevitably examines one's habits of life from the doctor's standpoint. Late hours, overeating, lack of exercise—why, doctors' bills ought mostly to be entered in the family accounts as "recreation," "food" and "travel" (either street car or auto). But there's one thought for the man who never plays. The cost of a breakdown is really a business expense, and presumably deductible on the income-tax return.—Baltimore Sun.

Old-Time Bible Boxes
In the Seventeenth and early Eighteenth centuries family Bibles were kept in oak boxes made especially for that purpose.
