Duration of Soviet

Rule Easily Proved

"Comrade" Knillin is president of the soviet union. He is a peasant by origin. Like all good presidents Kainin makes a speech occasionally. He makes a specialty of addressing peasant audiences. Not long ago he made a speech at a farmers' reunion not so far from Nignix. The president was drawing a grandiloquent pic-ture of life under the soviet regime, At the outset he told his pensantdistances that Russia was the first country to throw of the yoke. Suddenly be was interrupted. Interruptions are not infrequent in peasant districts, "We have land and free-dom," cried one farmer, "but under the czar some of us had three pairs of pants and now we have only one." "Comrades," replied the comrade-president, "the negoes of Africa bave no pants at all," "How is that?" came back the voice from the audience. "You told us we were the first to be sovietized, but if those people in Africa have no pants at all, they must have had soviet rule for at least 20 years,"-Pierre Van Passen, in the Atlanta Constitution.

Physical and Mental

Requisites for Flying

The exploits of Lindbergh and Chamberlin have attracted attention anew to the physical and mental factors concerned in aviation, says Hygeia Magazine, commenting editorially on their flight.

Continuous flying for from 40 to 50 hours makes a tremendous demand on the constitution, since it involves sleeplessness, relative starvation and constant concentration. In addition to these factors is the question of altitude and the ability of the body to meet the demands of the unusual en-

Undoubtedly, a physical examination of a man who has just completed the terrific stress of a transoceanic flight would show much the same physical changes that occur in marathon runners or in workers who are compelled to maintain concentration for long periods of time.

The Last Survivor

Flyosan has killed all his millions of friends and relatives

No wonder he's blue. He knows he's next.

Flyosan has killed every single fly and mosquito in thousands of homes this summer. Flyosan is the modern best way of fighting flying

pests. It kills them by the whole-

sale-not one at a time

Flyosan is the original liquid insect spray (non-poisonous). Use Flyosan itself, not one of its imitations. Flyosan not only kills all the flies and mosquitoes in your home but also rids it of the millions of deadly, disease-bearing germs which each one carries,

"Swatting" only scatters these germs into the air which you and your family breathe.

Here is the right insecticide for each insect:

FLYOSAN, Liquid Spray - kills flice and PETERMAN'S ANT FOOD - exterminates

PETERMAN'S DISCOVERY, Liquid - exterminutes bed-bugs.
PITERMAN'S ROAGH FOOD—saterminates that energrouch termy.
PETERMAN'S MOTH FOOD — protects

You must have a specific insecti-

cide for each insect. No single in-secticide will exterminate them

ail. We have had nearly 50 years' experience. We know that is true.
