

# FARMER WOMAN IN OKLAHOMA

### Praises Lydia E. Pinkham's Vegetable Compound Because It Gave Her Health and Strength

In a sunny pasture in Oklahoma, a herd of sleek cows was grazing. They made a pretty picture. But the thin woman in the blue checked apron sighed as she looked at them. She was tired of cows, tired of her tedious work in the dairy. She was tired of cooking for a household of boarders, besides caring for her own family. The burdens of life seemed too heavy for her failing health. She had lost confidence in herself.

One day she began taking Lydia E. Pinkham's Vegetable Compound and her general health began to improve. She took it faithfully. Now she can do her work without any trouble, sleeps well and is no longer blue and timid. This woman, Mrs. Cora Short, R. R. 9, Box 287, Oklahoma City, Okla., writes: "Everybody now says: 'Mrs. Short, what are you doing to yourself?' I weigh 135 and my weight before I took it was 115. I have taken seven bottles of the Vegetable Compound."

Other women who have to work hard and keep things going may find the road to better health as Mrs. Short did, through the faithful use of Lydia E. Pinkham's Vegetable Compound. Ask your neighbor.

# WHEN I WAS TWENTY-ONE

BY JOSEPH KAYE

AT 21—James Montgomery Flagg was studying Art.

AT ABOUT this age I was an art student and a short time later I became an illustrator for the St. Nicholas Magazine.

And it was St. Nicholas that first published my drawings.

I had always made drawings—from the age of two—of everything imaginable, from cows to blood-lusty Julius; these were mildly discouraged by my parents, but they nevertheless dated and pigeon-holed them in a sideboard drawer.

When I was about twelve I took a batch of drawings in to St. Nicholas, and Tudor Jenks, the editor, showed a kindly interest in me and them; and as he knew a lot about drawing he helped me. He selected about ten of the cuttings I laid on his desk and made me redraw them, after which he published them on a full-page of the magazine. I received my first professional payment for them—ten dollars—in cash.

I walked dizzily home.—James Montgomery Flagg.

Formerly a woman'd marry almost any man but on'y kiss one she really cared about. Nowadays a woman'll kiss almost any man, but on'y marry one she really cares about.

If you can kiss a woman easy, don't blame it entirely on your irresistibility.

Don't ever tell a woman she don't understand herself. If she does happen to, she'll be furious. And if she don't, she'll be even more so. (Copyright.)

**Vegetarian Gravy.**  
Chop one small onion and carrot and brown them in two tablespoonfuls of butter. Dissolve one bouillon cube in one cupful of water, add to the vegetables and simmer for 20 minutes. Strain and thicken with flour and butter well browned, adding a dash of Worcestershire sauce and kitchen bouquet.

**Gateau de Princess.**  
Bake a sponge cake in two jelly tins. Cut the center from one cake, leaving a rim one and one-half inches wide. Cover the cake with jelly, jam, fresh berries or sliced fruit. Place the rim over the cake and frost the rim or decorate with whipped cream.

**Cream of Corn Soup.**  
In a double boiler place one quart of milk, one and one-half cupfuls of corn, one-half of an onion, three sprigs of parsley, paprika and salt to taste. When hot stir in two tablespoonfuls of flour smoothed with two tablespoonfuls of butter, add to the soup and cook for 15 minutes; remove the onion and parsley and press through a sieve. Serve hot garnished with freshly popped pop corn.

"RED LETTER DAY" is now used to signify any gala occasion or memorable day in the life of an individual or a nation.

Originally, however, the term is an ecclesiastical one and was used to mark the more important festivals and saints' days of the church. These occasions were marked in red letters instead of black in the calendar. In the cheaper prayer books both of the English and the Roman church where the two colors were not used in printing these days were printed in italics or Gothic capitals. The minor festivals were marked in black letters by lower-case Roman type.—Anna N. Turnquist (© 1927, Western Newspaper Union.)

# THE DOER OF DEEDS

By EVELYN GAGE BROWNE

IT ISN'T the man who tells you  
How everything should be done;  
Who points out this one's failures,  
And jibes at everyone.  
Who boasts how he'd have done it,  
And criticizes the way,  
The Doer of Deeds is working—  
Who counts in the world today.  
It's the man who's in the struggle,  
Whose face is grimed and worn,  
Who keeps on fighting bravely,  
Though battle-scarred and torn.  
He may fall—but gets up gamely,  
And, striving, never heeds,  
The ones who sneer and slander,  
But dares to do the deeds.  
He gives himself, unsparring,  
And never counts the cost;  
But knows the joy of fighting,  
Although his cause is lost.  
To him belongs the credit,  
And the victor's laurels, too;  
For the world today is needing  
The man who dares to do!

# SOMETHING TO THINK ABOUT

By F. A. WALKER

**THE LOGICAL SEX**

ABOUT the oldest tradition in the world is the one that describes the "race of men" as the logical sex. The masculine human being is convinced that he solves his problems by reasoning with himself about them. On the other hand, he is convinced that the female of the species is simply guided by instinct.

This is in spite of the fact that all over the world, from China to Peru, when it comes to the question of feminism, the men lay down a general proposition and then proceed to evade it.

In a word, women and men are "equal." But man's prejudices must not be interfered with. He still reserves to himself the right to protect and regulate the other half of humanity.

Women have the right to vote at elections all over the continent of North America. They may be admitted to the bar and plead before the courts. But the question whether or not they should be allowed to sit on juries is not yet settled in most of the states.

Various reasons are given by those who oppose the change.

When it is examined the opposition is found to be based on the theory that the gentle sex must be regulated as it has been in the past.

An interesting example of masculine logic is supplied by the German republic.

In the constitution of that state it is provided explicitly that men and women have the same rights and, apart from fighting, must perform the same duties.

Yet when the proposal to make women eligible for jury duty came up before the federal council in the form of the proposed draft of a law it was negatived.

The explanation given by Herr Von Preger, the Bavarian representative, ought to be framed and hung up in every woman's club in the world as an example of how not to reason.

"The Bavarian government," he said, "maintains the principal stand point that women are not suited to judicial office. The admission of women would result in a softening of justice, which is most undesirable just at this time."

So it all comes to this: Women may elect those who make the laws they may expound the same laws but they are not fit to decide simple questions of fact arising in connection with the administration of the laws.

When Mrs. Poyser made the tart generalization that the women were made fools "to match the men" she was really unnecessarily severe on the long suffering sisterhood. (© by McClure Newspaper Syndicate.)

**The Wrath to Come**  
President Guth of Goucher college told at a tea in Baltimore an examination story with a moral.  
"A student," he said, "took it easy through the year, and when examination time came he failed in all seven of his examinations."  
"Poor father!" he thought, "and he so proud of me!"  
"So the student hurried to the telegraph office and telegraphed to his sister:  
"Failed in all seven examinations. Prepare poor father."  
"His sister telegraphed back:  
"Father prepared. Prepare yourself."

**Liquid Lenses Perfected**  
As substitutes for ordinary lenses, glass shells filled with liquid have been devised by a French inventor, who says that by his process an astronomical lens equal to the usual ground type that would cost \$100,000 and require years to complete, may be made in a few weeks for \$1,000. The fluid substance is enclosed between two hard surfaces, and the new lenses may be used in opera glasses, cameras and microscopes.
