

## SHE WENT FROM BAD TO WORSE

Down to 98 Pounds—Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound

Cleveland, Ohio.—"After having my first baby, I lost weight, no matter what I did. Then a doctor told me I would be better if I had another baby, which I did. But I got worse, was always sickly and went down to 98 pounds. My neighbor told me about Lydia E. Pinkham's Vegetable Compound, so it helped her very much, so I tried it. After taking four bottles, I weigh 116 pounds. It has just done wonders for me and I can do my housework now without one bit of trouble."—Mrs. M. RIZZINGER, 10094 Nelson Ave., Cleveland, Ohio.

If some good fairy should appear, and offer to grant your heart's desire, what would you choose? Wealth? Happiness? Health? That's the best gift. Health is riches that gold cannot buy and surely health is cause enough for happiness.

Lydia E. Pinkham's Vegetable Compound may be the good fairy who offers you better health.

Harmless, purely vegetable, Infants' and Children's Regulator, formula on every label. Guaranteed non-narcotic, non-alcoholic.

**MRS. WINSLOW'S SYRUP**

The Infants' and Children's Regulator

Children grow healthy and free from colic, diarrhoea, flatulency, constipation and other troubles if you give it at bedtime.

Safe, pleasant—always brings remarkable and gratifying results.

At All Druggists

**Credit to Motorists?**

The automobile has been responsible for the development of a sturdier and incidentally a smarter race of roosters and chickens, according to Richard C. Haldeeman, president of the Pennsylvania Motor federation. Haldeeman asserts that the large number of chickens killed on the roads during the early days of the automobile age weeded out "mentally unfit roosters and hens." He asserts that instead of being blamed for the chickens which are still killed the motorists should be thanked, for they are aiding the farmer in developing a better grade of fowls.

The bureau of public roads has developed an instrument that determines accurately the relative smoothness of a highway.

### Feel Tired and Languid?

ALWAYS tired and achy? Sure your kidneys are working right! Sluggish kidneys allow waste poisons to remain in the blood and make one dull and languid, with often nagging backache, drowsy headaches and dizziness. A common warning is scanty or burning secretions.

Use Doan's Pills. Doan's, a stimulant diuretic, increase the secretion of the kidneys and aid in the elimination of waste impurities. They are praised the world over. Ask your neighbor!

**DOAN'S PILLS**  
60c  
STIMULANT DIURETIC FOR KIDNEYS  
Eoster-Milburn Co., Mfg. Chem. Buffalo, N.Y.

## Improved Uniform International Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Dean Moody Bible Institute of Chicago.) (©, 1927, Western Newspaper Union.)

**Lesson for November 13**

**HOSEA PREACHES GOD'S LOVE**

**LESSON TEXT—Hosea 11:1-4, 8, 9; 14:1-3.**

**GOLDEN TEXT—**I desire mercy and not sacrifice and the knowledge of God more than burnt offerings.

**PRIMARY TOPIC—**God's Wonderful Love.

**JUNIOR TOPIC—**God's Wonderful Love.

**INTERMEDIATE AND SENIOR TOPIC—**The Unchanging Love of God.

**YOUNG PEOPLE AND ADULT TOPIC—**The Loving-Kindness of God.

Hosea's message was primarily to Israel. The nation was outwardly prosperous, for its height of temporal glory was reached in the time of Jeroboam II. (See II Kings 14-20). With this prosperity came luxury, immorality and apostasy. Calm worship and Baal worship were substituted for the worship of God.

**I. The Apostasy of Israel (chs. 1-3).**  
Israel's covenant relationship with Jehovah is presented under the figure of a marriage. Their spiritual whoredom is symbolized by the example of an unfaithful wife.

**1. The marriage (1:1, 2).**  
Hosea was commanded by God to take an unchaste woman to be his wife. While this was a strange act, yet it was right, for it was commanded by God, and its motive was the elevation of the woman to the prophet's moral plane. It was designed to show God's wonderful condescension and love in entering into covenant relationship with a nation of such immorality. The nation had no more to commend it when God chose it than this unchaste woman when Hosea contracted marriage with her.

**2. The unfaithful wife (ch. 2).**  
Notwithstanding the wonderful condescension on the part of the prophet in contracting marriage with this woman, Gomer, the unfaithful wife, departs from him to consort with her former base lovers. This shows Israel's base ingratitude in their departure from God to go after idols. So chastisement fell upon her for her unfaithfulness.

**3. Illustration of Gomer, the unfaithful wife (ch. 3).**  
This illustrates God's undying love for Israel. The motive governing the prophet's act was love. God's love for Israel is just as real. His grace will yet move Him to take back that nation to Himself.

**II. God's Love for Israel (Hosea 11:1-4, 8, 9).**

**1. Its beginning (v. 1).**  
It began when Israel as a nation was in its childhood. God loved the nation even while in Egypt.  
**2. "Called my son out of Egypt" (v. 1).**

God called Israel out of the bondage of Egypt and brought them into Canaan, the land of freedom—flowing with milk and honey. Such love and favor placed Israel under peculiar obligation to God.

**3. "Taught Ephraim to go" (v. 3).**  
In spite of Israel's backsliding (v. 2), God is represented as teaching Israel how to walk, even as a father taking up his child in his arms. God watched over them as parents watch over their children by night.

**4. "I drew with cords of a man" (v. 4).**  
Observe that His drawing was not with a stout rope as used with an unruly heifer (ch. 10:11), but a cord such as a man could bear. God's wonderful love in Christ should constrain us to obey and serve Him.

**5. Took off the yoke from the jaws and placed food before them (v. 4).**  
The figure is of a husbandman lifting the yoke from the oxen so that they could eat.

**6. Unwillingness to give them up (vv. 8, 9).**  
In spite of all Israel's sin, God was unwilling to destroy them.

**III. God Pleads for Repentance (14:1-3).**  
Notwithstanding their awful sins, God urged Israel to turn unto Him. He is doing the same to backsliders today. He made promise unto them.

**1. "I will heal their backslidings" (v. 4).**  
This is on the condition of frank and full confession.

**2. "I will love them freely" (v. 4).**  
This is characteristic of God. Only God can express unmerited love.

**3. "I will be as the dew to Israel" (v. 5).**  
God will refresh the nation as dew does the parched grass.

**4. Growth promised (v. 5).**  
**5. Beauty assured (v. 6).**  
**6. Pleasant fragrance (v. 7).**  
While this is a picture of the restored nation, something similar may be seen in the fragrant, fruitful lives of men and women who have sinned and come back to God.

**Faithfulness Is All**  
He who is faithful over a few things is lord of cities. It does not matter whether you preach in Westminster Abbey, or teach a ragged class, so you be faithful. The faithfulness is all.—George Macdonald.

**The Sane Christian**  
A sane auto driver keeps his hand on the wheel and his eye on the road. A sane Christian keeps his hand on the Bible and his eye on God.—T. C. Horton.

## KALGAN IMPORTANT CHINA TRADE CENTER

Situated on Horseshoe Curve of Great Wall.

Washington.—"Kalgan, important trading center of northern China, recently occupied by Nationalist forces, occupies one of the most ancient crossroads in the world," says a bulletin from the Washington headquarters of the National Geographic society. "There the caravan route from Peking to Urga, on the other side of the Gobi desert, crosses the great wall of China. The great wall has fallen into disuse and is no longer a military highway, but the caravan route to Mongolia has kept pace with the times and now automobiles mingle with the camel trains on its long and tedious path.

**Where Railway Meets Desert Trails.**  
"Kalgan is situated near the border of the province of Chih and Mongolia, about 125 miles by rail north-west of Peking. At this point the great wall has formed a horseshoe curve. Kalgan is on the outer edge and Nankow on the inner. The traveler from Peking thus crosses the old fortification twice, once at Nankow and later at Kalgan. The railway journey from Peking occupies an entire day, due to the steady rise in the landscape toward the Mongolian plateau, which has Kalgan on its rim.

"Thence tea and tobacco for the northern trade must be hauled across the Gobi by cart, camel or an occasional motor truck. Such a journey occupies many days, wells being twenty, thirty and even fifty miles apart. Caravans are enormous, some numbering between three and four hundred camels. Many camels succumb to heat, cold, hunger or thirst and the trail is marked by bleached bones of dead animals. For the most part they get through, however, and on their way south pour the products of Mongolia into Kalgan. Hides, wool and furs reach this outpost of civilization in enormous quantities from the grazing lands of the north.

"Another Mongolian product marketed through Kalgan is the hardy little Mongol pony of the plains. These are in demand throughout the northern provinces, especially gray and white ponies, the latter being favorites with the Chinese. Foreigners find these tough little beasts first rate for saddle purposes, though they have a reputation for stumbling.

"Plains, ponies and herds give Kalgan the air of the old American West, an illusion not dispelled by its reputation for lawlessness.

"The city has an estimated population of 70,000 who are largely employed in trading and allied industries, such as the manufacture of saddles, harness and rope. Low mud and block houses with tile roofs stretch in dirty monotony on either side of the Ta Ho, which stream cuts the city in two, and during the rainy season sometimes floods the neighborhood. There are many Russian inhabitants and they have their own bank and church. Modern architecture is represented by a few business buildings belonging to the fur and tobacco trade and native stores. The white population other than Russian has always been small, limited to a few traders and missionaries.

**Famed for Color and Climate.**  
"Kalgan is a name unfamiliar to the majority of China's inhabitants, the city being known by the Chinese as Chang Chia Kou. Mention this name to a home-loving Chinaman and he pictures for you a wild frontier settlement in whose streets galloping Mongol horsemen from the plains jostle tea caravans en route for Siberia and soldiers from the local garrison. Such a picture of Kalgan is equally true today. It is known among foreigners resident in China as a city of the 'wild and woolly' West, where the hospitality of the traders is only equalled by a bracing upland climate."

### Says Fish Eating Causes Rise in Japan's Birth Rate

Moscow.—A close connection between fish-eating and the birth rate has been discovered in Japan, according to the claim of Josef Washington Hall, an American author and formerly private secretary of the Chinese war lord, Wu Pei-fu.

Japan, Hall said on a visit to Moscow, has become the greatest nation of fish eaters in the world and simultaneously the birth rate in Japan has increased. The ratio works out, he claimed, at about 400 pounds of fish for each gain in the birth rate.

Hall's pen name is Upton Close.

**Succeeds in Extracting Rubber from Fig Trees**  
Pasadena, Calif.—Dr. Frederick Osus, rubber specialist, announced that his initial experiments in extraction of rubber from fig trees has proved successful.

Doctor Osus said that rubber in commercial quantities may be obtained from the Panache, or French fig, and that the common California varieties, the Kadota and the Adriatic, are being subjected to research processes now.

## HIDDEN 300 YEARS, TREASURES RETURN

Two Van Dycks and One Murillo Found in Peru.

Lima, Peru.—Two paintings by the Flemish master, Van Dyck, and another long-forgotten treasure from the brush of Murillo are about to make their reappearance in the world of art after more than three centuries of seclusion in the ancestral mansion of Senior J. L. Iriararren de la Puente, descendant of one of the most celebrated members of the old Spanish nobility in Peru, the Marquis de Villafuerte y de la Puente.

The three works, valued at approximately \$1,250,000, have been pronounced genuine by the late Theophilus Castillo, Peruvian artist and critic who enjoyed a high reputation in European art circles. They have been vouched for by other critics who have made special visits to Peru to view them.

Of the trio the most valuable is the Murillo, worth \$1,000,000. Its subject is "Saint Joseph and the Infant Jesus." Its canvas measures approximately three feet in height by two feet in width.

The first of the Van Dycks is painted on copper, its subject being: "The Repentent Magdalen Distributing Her Jewels." It is rectangular and is smaller than the Murillo. This work is in a perfect state of preservation and is valued at \$150,000.

The other Van Dyck is "The Worship of the Golden Calf." The owner values this picture at \$100,000.

The pictures were brought to Peru more than 300 years ago by the Marquis de Villafuerte y de la Puente. The owner recently decided to sell all three works and has offered them to the British museum.

### Herd of Antelope Is Found in Texas County

Mercedes, Texas.—In the remote wilderness of chapparral in the border district between Mercedes and Laredo, a herd of antelope was recently discovered by Charles G. Jones, state game warden. Mr. Jones said upon his return to Mercedes that the ranch region of the border is still teeming with wild game.

"For three weeks I have been getting acquainted in Starr, Zapata and Jim Hogg counties and find game plentiful," he said. "There are thousands of quail, deer and wild hogs on every side. There are about 150 antelope in Jim Hogg county. If the hunter was ever careful in his life, let it be when he runs across these protected animals, for no one is allowed to shoot an antelope in Texas at any time."

### Expedition to Study Life 500 Feet Below Pacific

Denver, Colo.—Plans for an expedition that has its destination 500 feet below the surface of the Pacific ocean were revealed here recently by George M. Williamson, one of the Williamson brothers who filmed Jules Verne's "Twenty Thousand Leagues Under the Sea" 13 years ago. In the project announced by Williamson, three men will be lowered to a depth of 500 feet below the surface of the ocean in a steel ball-shaped chamber, and, from heavy glass portholes, they will study deep-sea life. A specially built schooner carrying the party of scientists, who will perform the researches will sail from San Diego, Calif., within the next 60 days for the west coast of Mexico, where the first experiment is to be made, he said.

### Stamps of Late Czar Bring Little at Sale

London.—Stamps once owned by the czar of Russia and which cost his government \$250,000 to produce were put up for auction here recently. They failed to bring one-hundredth of their cost.

The stamps were offered on the instructions of a client in Latvia, whose representative attended the sale in case the reserve price was not reached. This was set at \$3,750, which was the price once offered for the stamps when exhibited in America. Although the bidding began at \$1,000 and rose by \$125 bids to \$2,000 it went no higher.

**Great American Hen Lays 760 Eggs a Second**  
Washington.—American hens are creating a record for themselves by laying collectively at the rate of 760 eggs a second, or 24,000,000,000 a year, according to the Department of Agriculture, thus accounting for about 16 per cent of the total value of all live stock and its products last year. Only the dairy industry, with 40 per cent, and the swine industry, with 22 per cent, were higher.

**Do His Looks Belie Him?**  
Mrs. Hoyle—"Your husband is a bright-looking man." Mrs. Doyle—"Yes, that's the way he looks."

**Clean Kidneys By Drinking Lots of Water**

Take Salts to Flush Kidneys if Bladder Bothers or Back Hurts

Eating too much rich food may produce kidney trouble in some form, says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders.

### Reverse Effect

A paradox pointed out by the Arkansas Gazette is that a woman can deflate a man by blowing him up.

### Cheery News for Mothers

Oakland, Calif.—"I married very young and my children came very close together. During my first expectant period a friend told me of Dr. Pierce's Favorite Prescription. I have had seven children—all very strong and healthy—and I took the 'Favorite Prescription' each time except the last, and that was my hardest ordeal. I never had any trouble with any of the others, always felt well, was able to do all my own work right up to the last, never suffered very long with any except the last one, and I am sure that would not have been had I taken the 'Prescription' as before."—Mrs. Benita Strohallen, 877 86th St.

All dealers. Tablets or liquid.

The world knows nothing of its greatest men.—Taylor.
