

The Importance of Eye Care

To everyone the value of sight is pre-eminent. It is the most cherished of the five senses. It is the most used and the most abused, but generally through ignorance and neglect. A greater appreciation of sight is not necessary. A lack of proper care is in a large measure responsible for much suffering and inefficiency. The eyes of school children, workers in industries and clerks in stores and offices should be cared for and aids to vision and glasses worn when they are required.

I Will Thoroughly Examine the Eyes of any School Child Without Charge or Obligation

Building Quality into Used Cars

Unusual facilities for reconditioning automobiles make possible the high value found in our dependable used cars. In the first place, we can tell exactly what needs to be done to a car without long and expensive experimenting. Our mechanics are thoroughly competent — and, working with special tools, they accomplish a given task in the minimum time. Furthermore, we use only genuine parts for replacement purposes. As a result, our reconditioned cars simply cannot be matched for value.
