The Farmers' Non Partisan Defender in Washington

You need this valuable newspaper in your home, because: You will receive FRESH NEWS every week, that is edited for farmers by men who know agriculture.

THE NATIONAL FARM NEWS gives the farmer and the rural town man an all-agricultural survey of the week's news, with a leaning toward the economics of production and marketing. The editorial staff is in close touch with the marketing machinery of the Agricultural Department and all the heads of the various cooperative marketing associations that are located in Washington.

WASHINGTON is the great clearing house of farm news. Every day brings the National Government into more intimate relationship with the country's basic industry—farming. Conscience that marked the past few years has subsided. But from now on there will be a steady, constructive program developed for the permanent improvement of farming.

Washington is the headquarters of the United States Department of Agriculture. This vast governmental agency is constantly at work on farm problems. It concerns itself not only with production, but with the business side of agriculture.

Washington, too, is the headquarters of many other branches of the Federal Government whose work touches in many vital ways the business of the farmers.

Most of the big farmers' organizations recognize the strategic advantage of being close to the governmental wheels. They maintain headquarters at the National Capital.

Washington is the center of farm news.

In addition to the news, The National Farm News carries some carefully conducted departments. For the housewife there is the women's page, where interests and matters pertaining to the household are discussed.

In addition to these features is an excellent legal department. Advice on knotty problems may be had for the asking, given by competent lawyers engaged in daily practice.

Then, too, there is a "Question and Answer" department for agricultural information. You may send in any question and it will be answered as quickly as space will permit. The Congressional Library is here and it has the largest collection of books in America.

The National Farm News is equipped to perform a real service for the farmer and to meet a real need in his business.

The subscription price is only \$1.00 per year.
