THE COLORED GENTLEMAN IN THE FUEL PILE

The News does not wish to be critical at this time, neither does it wish to place the blame or responsibility for the condition of the Eagle Creek bridge during the Christmas tide shopping season, but it does seem that there is a "nigger in the woodpile" somewhere.

Of course everyone is interested in having the Eagle Creek bridge absolutely safe, but this could have been accomplished earlier in the season or could have been postponed at least until after the holidays.

It certainly looks as if there was some motive for discovering so suddenly that the bridge must be repaired, and now that the work is under way, it most assuredly should be completed at the earliest possible date.

—oOo—

The News desires to call to the attention of its readers living outside the city to the fine stocks of Christmas merchandise now on display in the stores in Estacada. You can find what you want for your own use or for gifts here and it is to your advantage to trade at or near home if you can buy the things you need at the prices you would have to pay elsewhere.

The banker at Kenton who wrecked a million dollar institution was sentenced to seven years in the penitentiary. Two youths in Portland on the same day the banker was sentenced were given fourteen years for taking \$60 from a grocery store. If you insist on taking other people's money, it apparently is much safer to take \$100,000 than to take \$60. It doesn't pay in either case.

—oOo—

The editor of the News has been told by not less than a dozen different people during the last two days that there is a fine lot of citizens in the community. If there are any of the undesirables in the community we have yet to hear of them. It should be some consolation to the readers of the News to know that their neighbors and friends have a good opinion of them.

The Estacada State Bank, along with the other service it is furnishing the people of this community, is maintaining a bulletin service and furnishes those interested with information being supplied farmers by the State College. This should prove of great value to the farmers of Eastern Clackamas county if they take advantage of the opportunity provided by the management of their local bank.
