ESTACADA, OREGON, FRIDAY, JANUARY 13, 1928

NUMBER 15

HIGH SCHOOL PLAY SCHEDULED TONIGHT

SHOW BY THE SENIOR CLASS IS READY FOR APPROVAL OF ESTACADA PUBLIC

Because he enjoyed spoiling his two daughters, Eva Irene Davis and Julia Lillian Duncan, since this would give him a "pleasant power of his great wealth," Mr. King, (Bob Hayden) has come to be regarded by them merely as a payer of bills. Mr. King decides to escape to the Amazon leaving his family in charge of his young manager Adam Smith (Carl De Moy) who deplores the check book rule.

The new head of the household finds himself opposed by Julia's husband, Clinton (Dan Jennings) who is still, after two years, trying to decide what his life profession shall be, and by Uncle Horace (Oliver Beck) whose favorite occupation is sleeping in the most comfortable chair in the house. Aunt Abby (Olive Bishop) also takes charge of matters when she can find time from her memory courses and founding of homes for stray cats.

A most delightful maid is Cynthia (Alice Kaake) who looks after the many requirements of this numerous family. Eva has two admirers, Dr. Delamater (Harold Kitching) in reality a fortune hunter, and Lord Andren Gordon (Elwin Beck), a very likeable chap who is much interested in golf.

Adam decides that the only way to get the family out of the habit of spending money faster than they get it, is to move them far away from the present environment. He consequently takes them to Newark where the principal amusement is going to bed at eight o'clock.

It would be hard to guess how Adam made wage earners out of the family.

You will enjoy "Adam and Eva," the senior play, which will be given at the high school auditorium this evening (Friday), starting at 8 o'clock.

The committee in charge of the sale is composed of Mrs. O. E. Smith and Mrs. E. E. Hannah.

ADVISES PLANTING OF SOME EARLY CABBAGE

Cabbage do well in this locality. If planted early enough and in well improved soil, a crop can be expected which will bring good returns at top prices.

For example, last March 4, a local man put out 1200 plants which brought him a net return of over \$35. He sold his crop at 2 cents per pound, whereas if he had harvested it a few days earlier it would have brought him 5 cents per pound. The writer received 6 cents per pound for a few early heads and hopes to see more of the people of this community try for the early market for cabbage.

Early cabbage must have good rich soil, but require very little care until in April or May when root magots must be fought with corrosive sublimate, 1 ounce to 15 gallons of water, applied around the stems, of the plants every ten days or as often as eggs may be found against the plant stem under the soil surface.

Cultivate as freely and often as possible after soil begins to dry. Market as early as possible to get top prices, even with a sacrifice of a few pounds in weight.—O. V. Cobb.

BIG DEVELOPMENT PROJECT PLANNED

SYNDICATE TAKES OPTIONS ON ACREAGE HERE FOR THAT PURPOSE IS BELIEF

Considerable excitement has existed in Estacada for several weeks since a supposedly eastern syndicate began taking options on local property. No one in the community has ever seemed to have an idea as to the intentions of the company or the project being planned.

It is stated emphatically that the date on some of the options taken expires on January 23, and the work of surveying some of this property which was started early this week has again turned loose a lot of rumors, none of which the News has been able to confirm.

It is evident that some development project here is planned, but that is as much as anyone seems to know. The story printed here from Thursday's Oregonian, is little more than the rumors that have been floating around town the past few days:

"Development of a summer resort and new residential addition to Estacada is said to be under way by a New York syndicate which has obtained options during the past three months on about 200 acres lying along both sides of the Clackamas river near the townsite of Estacada.

"The syndicate, headed by Matthew Jonap of New York, has acquired options on various parcels of property, including Estacada park and all land between the south bridge and river mill.

"Herman List, registered from Kingstone, Indiana, is at the site supervising surveys of the property.

Plans of the syndicate, it is said, are to construct a wide boulevard along the river front and to lay out summer home tracts. A golf course, swimming pools and other resort features are reported to be included in the plans.

"Great secrecy has surrounded the work to date with the result that the people of Estacada have revived interest in their region, which was famous for many years as a playground because of the development in 1901 of Estacada park, a 30-acre tract owned by the Portland Electric Power company.

"The syndicate, it is said, expects to close cash deals for much of the property within the next few weeks and is said to be working with a large capital at hand. Similar developments have been carried on in other parts of the country by this organization, but never before in Oregon.

W. C. T. UNION OPPOSES SUSPENDED SENTENCES

The Estacada organization of the W. C. T. U. has adopted the following resolution:

"Whereas, we have noted the tendency of the courts to parole or suspend sentences of the violators of the prohibition laws and whereas, we believe that after offenders against the said laws have been found guilty, they should be punished in accordance with the provisions of laws, as it is only by this means that the law and the enforcing officers can be upheld

"Now therefore, be it resolved by the Women's Christian Temperance Union of Estacada that we urgently request the courts not to parole such persons who are found guilty of violation of the prohibition law."

The first two high scoring exhibits will receive each a scholarship to the O. A. C. 4-H club summer school in June, 1928. One of these is awarded by J. C. Penney company of Oregon City and the other by the county council of the P.-T. A. associations.

Mrs. Fred Leihammer has been in Portland all the week on account of the illness of her mother.

PRIZES TOTALING \$2,000.00 TO BE AWARDED BY THE NEWS

CHEVROLET COACH, FORD ROADSTER, RADIOS AND CASH PRIZES TO BE GIVEN IN CIRCULATION CAMPAIGN.—ENDS ON SATURDAY, MARCH 17.

Estacada and Eastern Clackamas county are being made a startling offer. The Eastern Clackamas News offers a great opportunity to secure a beautiful new 1928 model Chevrolet coach, a new 1928 model Ford roadster, as well as many other prizes for a little spare time. It takes no special training to enter the proposition we are offering and win the prize of your choice. No investment as the News furnishes all the supplies and helps those who take part without one cent of cost. You do not even have to be a subscriber of the News.

This big list of prizes will be given to the candidates receiving the highest votes in the circulation campaign now being put on by the News. The publisher of the paper wants every home in Eastern Clackamas county to receive the News each week, and this is the purpose of the campaign, of which rules and regulations governing this contest will be found on page three of this paper.

Many Prizes Offered
A splendid array of prizes is to be given away in a few short weeks, to be exact, on March 17, St. Patrick's day, to those who take part. To those who do not win one of the regular listed prizes, and who continue active until the end of the campaign, will be paid a cash commission on the amount of business turned in. Anyone can make good wages with a guarantee like this. You can win one of the bigger prizes. You can make over \$100 a week.

How to Secure Votes
There are two ways in which to secure votes, which in turn win you

the prizes. One by saving the free coupons that appear in each issue of the News, starting next week, and by subscriptions to the paper. You can get your friends to help you. Credits are allowed on all subscriptions to the News. The vote schedule will be found elsewhere in this issue of the paper.

Get right into the field and solicit the support of your friends. They are going to renew, extend or eventually subscribe for the News anyway, so get to them first. It's an election. The people of this and surrounding communities are going to elect someone to the prizes. They will be given away.

How to Start
You will find in the big opening announcement a nomination coupon. Clip this out and fill in with your name or the name of a friend and bring or send it to this office. This will start you off with 10,000 votes. You will find an opportunity coupon good for 100,000 votes. Four of these for the first four new yearly subscriptions. You may include your own. Once started the rest is easy. The hardest part of the undertaking is the start.

Manner of Awarding Prizes
Winners of the various prizes will be determined by votes. Votes win and not the amount of money or subscriptions turned in. Make your slogan "Votes!" Work for votes all the time. At the end of the campaign the candidate having the highest total of votes will win the Chevrolet, the second high will win the Ford, and so on down the prize list until all the prizes are awarded.

Then to all the candidates, if there be any, who have not won a prize, a cash commission of 10 per cent will be paid on the amount of money they have turned in during the campaign. But in the event a candidate wins a prize the commissions will not be paid unless the commission exceeds the value of the prize, then the difference will be paid the candidate. A candidate to be eligible for a prize or commission must remain active during the life of the campaign, turning in cash reports each week.

Make Your Start Today
Make up your mind today that you will be the winner of one of these beautiful new cars, then send in your nomination and get instructions how to proceed and the necessary supplies, or better still, come to the office and talk it all over with us. If it is not convenient for you to come we will send someone out to see you. In any event get in touch with us without delay. Don't hesitate. "He who hesitates is lost." Get in before some one else gets in the territory that should be yours. Still there is room for all. The more candidates the less votes it will take to win. No one can get everyone, but several can and will get everyone and you will get your share if you start now and work faithfully.

Renewals count just the same as new subscriptions in this campaign. There are about five hundred people in Clackamas county now receiving the News. Many of them are behind with their subscription, because no effort has been made to collect it. We will furnish candidates with the list of subscribers in any section of the territory they desire to work, and you can collect from present subscribers just the same as from new ones.

Awarding the Prizes
In order that there can be no question arise as to the fairness of this paper in conducting the campaign, the ballot box will be placed in the Estacada State Bank one week before the end of the contest and will not be opened again until the campaign is closed on the 17th of March. Then the key will be turned over to the judges, three business men of the county, who will open the box and count the votes and award the prizes. Everything will be open and above board with no chance for anyone to favor any candidate even if they were so minded.

There is no chance for you to lose because you will be paid for the
