## ATTENDS FORD DEALERS MEETING AT PORTLAND

Bob Cooke, local Ford dealer, attended a group dealers' meeting at the Portland branch of the Ford Motor company on Monday. He reports a very interesting day spent. Many plans and features of the new Model A Ford car were discussed.

One of the first and important things taken up was the service facilities that will be offered the Ford owners on the new car. Each shop foreman and mechanic will receive a week's training under a trained expert in the proper methods of servicing the new car.

## INTEREST KEEN IN CIRCULATION DRIVE

### CANDIDATES ARE ENTERING FROM DIFFERENT PARTS OF THIS SECTION

Candidates are entering the Eastern Clackamas News' circulation contest from every community in the eastern part of Clackamas county, and the big campaign is beginning to get under way. However there is still time to start with the same opportunity to win as those who have already sent in their nominations.

Candidates and prospective candidates are reminded that this is a short campaign, just eight weeks, and someone is going to win a \$733.95 car for their spare time during these eight weeks. And if you fail to win the first prize, the second is not far behind in value and will pay someone's wages at the rate of salary received by big business men.

The radios and other prizes are worth the time and effort that it will take to win them, many times over. And remember this, you are to receive a cash commission on all the business you turn in if you do not win a prize, and should your 10 per cent commission amount to more than the value of the prize, the difference will be paid you in cash.

If you have not already sent in your nomination blank, do so today, and the necessary supplies will be forwarded to you and you can start now to win an automobile to drive home on St. Patrick's Day in the evening.

You will find a nomination blank in this paper, as well as the complete rules and regulations of the campaign. You will also find a free vote coupon that will count the same in the contest as earned credits and you can use just as many of them as are sent in to this office. Your friends will save them or send them in for you, and will gladly give you their subscription and help you to win if you only let them know you are going after the big prizes.

Don't delay. No one will help those who won't help themselves, but everyone respects those who try, and the harder you try, the more interest your friends will take in your personal undertaking.

Here is the list of candidates who have been nominated. If you send your subscription into the office and state to whom you wish the vote credited, it will be done. Makes no difference who you are where, the votes will go to who ever you wish. The nominations follow:

### Returns From Bridal Veil

Sam Bishop returned last Sunday from Bridal Veil where he had been working on a sawmill, on account of having the two first fingers on his right hand crushed in some machinery. He expects to return to work in a few days.

Ford sent a special message which is most interesting. He assures all the model T owners, of which it is estimated there are about ten million, that the Ford Motor company will see that they receive the best of attention and an adequate stock of parts will be obtainable from all Ford dealers at all times.

The tractor business among the agricultural districts is showing a fine increase. The motorizing of the farm has shown a rapid growth and Fordson power is doing its share. Economical and rapid production are the only way the farmer can compete in this age of mechanical development.

Altogether, the meeting was one of the most successful held for some time, Mr. Cooke reports.
