No matter how plentiful crops may be, there is always a market for the best. Almost half a million farmers have proved the effectiveness of the Fordson tractor by producing better crops and earning more profits with less labor.

The Fordson at work on your farm will unquestionably earn new profits for you. By making it possible for you to accomplish more yourself every day, it will also effect a big saving in hired help. With the Fordson you can plow as deeply as need be and effect a real saving in countless other power operations. By enabling you to prepare seed beds at the right time in the right way, and by making it easy to do timely and clean cultivation, the Fordson will increase crop yields. It will effect another big saving by making it possible to do harvesting promptly.
