

## The Advantages of Fordson Service Retold!

One of the big advantages of owning a Fordson Tractor is the fact that genuine Fordson parts and capable service can always be easily obtained without delay. Fordson dealers everywhere carry complete stocks of Fordson parts and have the necessary equipment and trained mechanics to render prompt and efficient service.

This gives to every Fordson owner a feeling of security. It affords assurance that no Fordson need remain out of service during a busy season for the lack of some minor part or repair. Charges for both replacement parts and work are standardized and can be estimated in advance.

Low first cost, low operating cost, low upkeep, and efficient service are important reasons why every farmer should have a Fordson

## THE ESTACADA...

Say, folks, don't you feel that we have made an honest endeavor to put the Estacada on the right side of the ledger during the past 5 years. Really we feel proud of this record. The doors are always open—a welcome always waiting. The thermometer is always right and say, the kitchen is full of sunshine. It isn't the things we intend to do now—the labor that we have just begun—that puts us right on the ledger sheet. It's the things we have really done.
