### HAL HOSS CANDIDATE FOR SECRETARY OF STATE

(Continued from page one) minds of the republican voters thru-out the state.

"During my career as a newspaper editor and as an officer in newspaper associations, I had opportunity to form a great many contacts with business and civic leaders, and during the past year and a quarter at Salem I have become acquainted with a number of people prominent in the public and official life of the state. My work with the press of Oregon has put me in a position where I am receiving the support of a great number of newspapers, and their endorsement is no small part of my encouragement.

Hal E. Hoss

"I sincerely believe that I am qualified by experience and training and the human attributes to be secretary of state. My business experience has been along administrative lines and in public life I have had the opportunity to, and did, study the work of the board of control and the office of secretary of state at close range. I intend, if nominated and elected, to give the people of Oregon an efficient and courteous administration of their affairs, so far as they would come under my jurisdiction.

"I would enter the office of secretary of state free from political entanglements, owing no debt to any individual or group. I am a native citizen of the state of Oregon, seeking one of its high offices because I feel that I can do the work well."
