Let's give the Berry Growers' Packing company the glad hand Saturday. The inspection trip will be made to exchange ideas on weevil control, tillage, and other problems. The caravan expects to be at Sandy at lunch time, bringing their own "feed." Sandy grange has invited the caravan to eat at the hall as the grange meets Saturday. It will start from Gresham country and will be enlarged along the way.

The track meet was a large affair. Between four and five hundred were present. It was a community gathering as well as a sports day for the children. People from every section clapped hands in kindly greeting, and the day was well spent.

A packed house is always assured here for the lighter things of life. Next Sunday night is the annual bac-

calaureate service at the high school. Last year the auditorium was half filled. Should we seek to be amused by the light and fluffy things all the while?

MRS. SHELLEY CAMPAIGNS FOR HUSBAND AS SHERIFF

While Percy T. Shelley, republican candidate for sheriff, is at the bedside of his father at Hood River, Mrs. Shelley is carrying on the campaign for her husband. Saturday night she spoke at Carus, Monday night at Kendall station, and Tuesday night at Gladstone along with the other county candidates. From reports Mrs. Shelley is making votes. Mr. Shelley's father has been having sinking spells for some time, and Shelley no more than gets home until his father calls for him again.

Brightwood folks say they feel fortunate in having a Red and White chain store where city prices prevail.

The different districts represented were Cottrell, Kelso, Firwood, Sandy, Brightwood, Welches, Bul Run, Marmot, Sandy Lutheran, Cherryville, Greenwood, Dover and Sandy-ridge, and about all carried away ribbons. Visitors from districts not entering the sports also enjoyed the day. A picnic lunch was enjoyed at noon.

Names of the pupils awarded ribbons in the home economics and manual training departments will be available next week.

HIGH SCHOOL NOTES

The boys' banquet Thursday night was the first of the kind ever held in the county. Sandy boys' cooking class is "classy," and Sandy may yet be famous for producing ten celebrated chefs, for the class surely has the "makings." Forty covers were placed at the banquet tables. Said tables were dainty with linen, pink candles, and pink rose leaf favors made by the boys, and clever place cards made by Jay Foust, made the tables lovely. The boys were hosts for their guests, but the girls' cooking class served beautifully and also helped with the table arrangements. But the dinner cooked by the boys, supervised by Miss Kammerer, was simply great.

The class is composed of Clarence Eri, Ellsworth Bell, Eugene Tawney, Ervin Finger, Howard House, Victor Bacon, Jay Foust, John Henge, Marvin Lund and Edward Nelson. The baseball game Friday between Sandy and Estacada was a pitching duel between Suckow and Whitehead. The score was 2 to 1 in favor of Sandy. The girls played a good game Estacada winning by the score of 15 to 13.

Here in Interest of Children's Home

Rev. B. E. Emerick of Portland was here Saturday in the interests of the Albertina Kerr and Louise homes. Mr. Emerick formerly taught in the same college with the late J. M. C. Miller and was a luncheon guest of Mrs. Miller while here. He states that 222 babies were cared for at the Albertina baby home and 231 girls at the Louise home the past year; mostly minor girls at the latter home. About thirty babies were adopted from this home, and 90 were claimed by mothers or relatives.

Jaydene Nelson was the guest of Mrs. Holt, her music teacher, at Monmouth Saturday, and later went with the Holts to Corvallis and Newport.

The city of Portland is plating some land at Bull Run which will be sold for summer homesites, it is reported.

It is not every high school that can boast of having four pairs of twins in school as can Sandy U. H. S.

Five hundred feet of new flume is being built at Bull Run for the P. E. P. company. This is to replace a stretch of the old wooden flume.

If the weather remains good a large amount of building is expected up the mountains this season. If rains continue so people cannot get into new homes for the season, it is predicted there will be much less construction.

Sixteen Years Ago...

A young man without funds and with only a meager education did some work for the First State Bank. When he had finished, one of the officers of the bank talked with him concerning his future and a plan for laying aside something to run a rainy day. He left with a vow that he would send us all he could possibly spare for a fund which was later to supply him a home. He kept his vow. His remittances were somewhat irregular and at times we feared that he had forgotten us or that something dreadful had happened to him. Finally we would receive a money order or check for a small amount, often from a state other than Oregon. Later we extended to this same man accommodations and service such as a man of his character is entitled to.

He called on the same officer of the bank a few days ago and expressed his appreciation of the bank's service reminding the officer that the lesson in Savings had been the greatest service that the bank had supplied.

He now owns a beautiful home within three miles of Gresham worth at least \$5,000 and, by the way, girls, this officer believes there is still a chance for some good girl to have a home.

This is a true statement and demonstrates what may be accomplished without an education but with a savings account.

YOUNG MAN

Where will you be sixteen years from now if you do not acquire habits of saving and learn the real meaning of thriftiness. These are serious thoughts that should engage your attention.
