

Put Your Model T Ford in Shape For Years of Service...

Our records show that the average useful life of a Model T Ford is seven years. That means there should be a lot of good service left in your car. Don't sacrifice it just to get a new automobile, but bring it in and let us look it over. We'll tell you just what it needs and fix it up at low cost. The labor charge for completely overhauling the engine and transmission is only \$25.
