Free admission to the Gresham Fair will be a big drawing card. New buildings have been erected for the public convenience. The fair opens July 25.

With four families of Wilkinsons and two of them named "George" it will be a case of finding out "who's who and which is which in the Cottrell district."

After all "Jupe" seemed to know what he was about—the grain crops around here promise to be better than for several years.

Berries Profitable

It is estimated that \$15000 came into the Dover section from the strawberry crop just harvested. The berries averaged a ton and a quarter to the acre and there were 100 acres in the Dover district. A larger acreage will be planted this fall. Grain looks better at Dover than it has for five years, the hay is fine, and all that is needed to harvest bumper crops is good weather.

Daughter Eorn

Mr. and Mrs. C. M. Coon (Dorothy Mattingly) are rejoicing over the arrival of an eight and one half pound daughter at their Molalla home. A. J. Mattingly of Sandy is a much pleased grandpa.

A. W. Bell has moved his family to his mill on Sandyridge for the summer.

Money Is Not Wealth--But

When stored in the banks of the country forms a basis of credit that is of material advantage to you and the community in which you live. The money which is held in hiding or carried in the pocket is of no benefit to anyone. One might as well expect returns from the iron and copper ore or gold nuggets stored in the depths of the earth. It is said that statistics show that if all the unnecessary money carried in pockets were properly invested the returns therefrom would pay all of our taxes. Provide yourself with a check book and pay by check rather than with cash. Check books furnished free.
