ESTACADA TAKES LAST GAME FROM SHERWOOD

(Continued from page one)

The batting average of the men on the team follows:

	AB	H	Pct.
Bill Fischer	63	31	.490
Al Weinel	35	17	.486
Ray Lovelace	91	43	.472
Johnny Minto	13	6	.461
Harry Miller	16	7	.425
Sid Miller	83	34	.410
Harold Haight	15	5	.333
Tony Bronson	82	26	.317
Arnold Lovelace	92	29	.315
Russell	42	13	.310
Ken Scales	58	13	.226
Tom Scales	32	7	.219
Jim Jennings	15	2	.133

The team batting average is .365 for the entire season, an unusually high batting average. Russell has been hitting as good as any man on the team during the last few weeks, but at the first of the season his average was low. He has a record of over the .500 mark for the last several games, very unusual for a pitcher.

Ray Lovelace, manager of the Estacada team, expects to win the championship with this team. Jude Moreland and Kenneth Scales will be used as pitchers in the double header game here on September 9. Russell is expected to fulfil the duty in at least three of the four games in the championship series.

WYOMING WILL HONOR MEMORY OF BRIDGER

Fort Named for Frontiersman to Be Shrine.

Vernal, Utah.—One more of the old frontier posts of the American West is to be preserved as a shrine to keep alive the memory of the man who founded it and whose name is written in the annals of the West as one of its true trail blazers—James Bridger, the first white man to gaze on the waters of Great Salt lake, in northern Utah.

Fort Bridger, in Uinta county, Wyoming, 115 miles northeast of Salt Lake City, Utah, is to be preserved for the people of Wyoming as a shrine through the efforts of residents of Uinta, Lincoln and Sweetwater counties in the southwestern part of the state. It is planned to obtain funds by popular subscription to defray the cost of purchasing the site and the few structures remaining on it, then to present the property to the state of Wyoming for maintenance as the Fort Bridger Historical park. A museum for the preservation of historical relics of southwestern Wyoming and data pertaining to its annals is to be erected and the state is to appoint and maintain a custodian.

Established as Trading Post. Fort Bridger was established as a trading post by James Bridger, who in the winter of 1824-25 discovered Great Salt lake as the outcome of a wager concerning the course of the Bear river.

The ghosts of the old trading post, if such there are, could tell of the traders of more than a century ago; of Indians and trappers; of pony express riders, and of Ben Holliday's stage drivers; of Brigham Young and his party of Mormons in 1847; of gold seekers hastening to California discoveries in 1849; of the coming of Gen. Albert Sidney Johnston's army in the winter of 1857-58, en route to Salt Lake City; of the troops stationed at the old fort in later years, and they could tell of the neglect of the old fort since the days when the government abandoned it as a military post. Ghosts seldom talk, but the annals of the West have preserved the history of Fort Bridger.

The trading post was the home for many years of hunters and trappers, their sole refuge in a desolate region. Until Utah was ceded to the United States after the war with Mexico, Fort Bridger was in Mexican territory. Until the present borders of Utah were established in 1861 Fort Bridger was in the territory of Utah. Many vicissitudes were the lot of the inhabitants of the trading post; hot summers and severely cold winters beset them, and at times, starvation threatened when deep snows and severe temperatures in the winter months prevented journeys to replenish the larder. Bancroft's history of Utah records that the winter of 1848-49 was one of the coldest ever experienced in that region and that the following order was issued: "That no corn shall be made into whisky and that if any man is caught preparing to distill corn into whisky or alcohol the corn shall be taken and given to the poor."

In 1853 Fort Bridger, together with its Mexican grant of thirty square miles, was purchased by the Mormons for \$5,000, and in the following year an equal sum was expended for improvements.

Destroyed by Young. In the late autumn of 1857 Gen. Albert Sidney Johnston and his army, en route to Utah to what is sometimes referred to as the "Utah war," arrived at Fort Bridger, or, rather, what was left of it. Brigham Young had threatened to destroy the place if General Johnston persisted in marching on it—and the threat was carried out. The grain and other stores were either carried off or destroyed and of the buildings only two enclosures walled in by cobble rocks, remained. In late years other structures were erected.

While still in Utah Fort Bridger at one time rose to the distinction of being designated seat of Green River county's government. During the occupancy of Fort Bridger by cavalry of the regular army it was the headquarters of the military forces of the government for southwestern Wyoming, northeastern Utah and northwestern Colorado.

Fort Bridger will now be saved from completely losing its identity as one of the historic spots of the West. There is no doubt that the state of Wyoming will maintain it as a state park and that the museum in time will become the mecca for scientists engaged in research of historical data of the region.
