WALTER DAMROSCH TO DIRECT NEW MUSIC EDUCATION HOUR

Walter Damrosch (left) and David Sarnoff, Vice President and General Manager, Radio Corporation, completing arrangements for New Music Education Hour.

Arrangements have been completed for a special series of 24 educational orchestral concerts to be broadcast next season, beginning in the fall. The new Music Education Hour sponsored by the Radio Corporation of America will be under the direction of Walter Damrosch, the dean of American musicians, who made the Hour of the past season one of the great accomplishments of radio broadcasting.

In response to the nation-wide demand for an educational hour of music for young people and children, next season's program will be given Friday mornings at 11 o'clock Eastern standard time, so that it can be heard in the schools. It is planned to use 23 stations of the National Broadcasting company and associated stations, covering the entire country between the Atlantic Coast and the Rocky Mountains.

In making the announcement, David Sarnoff, Vice President and General Manager of the Radio Corporation of America, said:

"Since the first days of broadcasting we have confidently looked forward to the time when radio broadcast-

ing and reception would be so perfected that it might be used for universal education as well as entertainment. Millions of dollars have been spent in the development of broadcasting, with the belief that this new means of universal communication would become of great public service, supplementing and augmenting other means of education.

"When Mr. Damrosch came to us some time ago with a plan for inculcating a better appreciation and understanding of good music, we were immediately impressed by its great possibilities. And the many thousands of letters recently received from teachers, parents and educational authorities, from all over the country, following our three experimental lecture-concerts, have confirmed our judgment.

"The time for music education over the air is opportune, because of the perfected state of radio broadcasting. The best music can now be entrusted to the microphone with the full assurance that it will issue forth from the loudspeaker in the school or the home with a true approximation of the original rendition."

IMPROVEMENTS MADE AT THE PATTISON FARM

EAGLE CREEK, Sept. 6.—(Special).—W. F. Pattison is making extensive improvements on his place here.
