AMERICA LEADING IN RADIO COMMUNICATION

The opening of a new, direct radio channel between New York and Lisbon, Portugal, for the transmission and reception of Radiograms was recently announced by the Radio Corporation of America. The inauguration of this radio circuit adds another portion of the world-wide communication system which has New York as its hub and radiates directly to England, France, Germany, Italy, Holland, Belgium, Sweden, Norway, Poland, Turkey, Argentina, Brazil, Colombia, Venezuela, Porto Rico, the Dutch West Indies, and Dutch Guiana. From San Francisco other direct radio circuits join the United States to Hawaii, Japan, the Philippines, Hong Kong and Shanghai, China, the Dutch East Indies and French Indo China. To further insure the continued supremacy of the United States in trans oceanic radio communication the RCA is planning additional circuits for the near future to countries as near as Spain, Czechoslovakia, Chile and Siberia.

30 years ago has been found embalmed by rust in a perfect state of preservation in Birmingham, Ala. A church maintained at Washfield, England, now has an average congregation of only six persons. Mrs. Mary Trout of New York City was ordered evicted as a trespasser from her husband's home, where she had seized a room after they were legally separated.
