STROPPING IS ESSENTIAL TO THE PERFECT SHAVE

a Million Boosters say it's GREAT

The Million Dollar
Valet AutoStrop Razor shows
the necessity of stropping
before each shave ~ ~ ~

BECAUSE it solves the problem of men with stubborn beards, the new Valet AutoStrop Razor is taxing our factories' capacity to meet America's demand.

Everywhere wise men are turning to the improved Valet AutoStrop Razor because it is teaching them the vital importance of never shaving with a blade that has not been properly stropped.

All barbers know that until it is stropped the cutting edge of every blade is a row of tiny needle points that scrape and tear the skin. Stropping smooths them out.

With the automatic self-stropping device of the new Valet AutoStrop Razor you can do this in a few seconds. And the new model offers you many other modern features exclusive in this razor. It is the result of 21 years of experiment and the expenditure of a million dollars.

Both the razor and the blades have been distinctly bettered. Made of the costliest steel, treated by the exclusive Valetite process, Valet blades have a perfect edge. The self-stropping feature keeps them so. New type guard gives you full use of the shaving surface of these keener blades. Instantly inserted or removed by pressing a button. Locked in a firm non-flexible grip, they put blade vibration and razor pull out of the picture for good. No need to remove the blade to strop and clean it.

Try this new Million Dollar Razor. You'll quickly learn to like it. And once you know its soothing shaves and friendly angle, you'll stick to it for life.

Beautifully finished models complete with blades and an improved strop in handsome cases at \$1.00 to \$2.5.
