The Clackamas County Christian Endeavor society convention takes place in Estacada, starting today, November 2, 3 and 4. The program opens at the Christian church at 7:30 Friday evening, with an address of welcome by R. E. Beck, following the devotional service.

One of the principal speakers will be C. P. Gates, who is well known in this part of the county for his splendid work in the Christian Endeavor.

There is also to be a missionary from China in attendance, who will address the convention, also many more noted speakers.

Saturday the convention will open at 8:30 and with the exception of two short intermissions will be in session until 9:30 Saturday evening.

Sessions are planned for Sunday afternoon and evening with a closing sermon by Rev. D. R. Kauffman.

## Estacada Water System Problem for New Council

Since the story was published in last week's edition of the News in regard to the water question in Estacada, the editor has been charged by some of its readers as using this means to elect A. G. Ames as mayor of Estacada, others have charged that it was a deliberate attempt to elect John Lovelace as mayor, and still another charge was made that it was intended for no other purpose than to stir up trouble.

The News neither confirms or denies either of the charges, but after another visit to the stream from which the city water is taken, I have come to the conclusion that it is necessary that some immediate action be taken in regard to at least making the water safe for consumption.

I saw a goat—a nice white clean-looking goat—standing in the stream Tuesday. Now goats are supposed to be the least subject to disease of most any animal in existence. I don't know why this is, unless the goat smells so bad that disease germs can't stand him. But I do not like to have my drinking water flavored by a goat, even if he is free from disease.

I also saw an old sow and a number of shoats along the bank of the stream. No, the shoats were in the stream, and the sow was on the bank but she had just come out of it. This was in a pasture of a farmer, and he necessarily has to use this pasture, and his stock get their water from the same stream that the town of Estacada gets its water. This would be all right, if Estacada had the first chance at it, but it hasn't, and probably never can have as long as the water is taken from this stream.

But the stock along the stream is not the worst part of it. There are three or four barns within a short distance of the stream. In fact one is but a few feet away. The barn belonging to the lady just above the intake does not seem to drain into

### MAZUMAS VISIT ESTACADA

Estacada was the scene of a merry party given by the Mazumas Saturday night and Sunday. They danced and gave a program Saturday evening and on Sunday went to Faraday and boarded the speeder and went up into the mountains. There were 160 in the party.

### ODD FELLOWS' BUILDING SAFE

Some of the Estacada Odd Fellows last week, after hearing complaints about their building not being safe, crawled around under it and thoroughly examined the sills and found them all in good shape with one exception. They repaired this and now consider the building perfectly safe and state that the fears were groundless.

### DOG POISONED

Sam Barr is mourning the loss of his pet dog, which died by a dose of poison, he thinks. He was a very smart dog and the whole family misses him. If the dog poisoner has again made his appearance in Estacada, it will not be well for him to be detected by Sam, for he sure is on the war path.

### SUPT. VEDDER SPEAKS

The Estacada Parent-Teachers association held their postponed meeting Tuesday night at the school building, which was well attended notwithstanding the fact that there were other attractions in town that evening. County superintendent, Brenton Vedder was the principal speaker and at the conclusion of the program tea and cakes were served by a committee of ladies.

### RAY KEITH ILL

Ray Keith of Faraday was taken ill suddenly Friday, and Saturday he was taken to a Portland hospital. He has been suffering very much but at this time the physicians have not fully decided what is the cause of his trouble. He was reported slightly improved Thursday.

### POLLING PLACES NAMED

The polling places in Estacada on Tuesday will be for precinct No. 2 in the city hall and a room in the library. For precinct 1, Gilgan's store. A separate ballot has been prepared for the city election and regardless of where you vote in the general election it will be necessary to go to the city hall to vote the city ticket.

### NO ONE WANTS TO BE SANDY TREASURER

Although refusing to run for reelection, C. O. Duke will be compelled to serve another term as Sandy treasurer, or resign. The following is the city ticket: Mayor, Bob Smith; recorder, W. G. Duncan and H. A. Schneider; councilmen, J. C. Loundree, J. R. Maroney and Glenn Loundree.

The Estacada city water. I believe that this is carried below the intake, but the drainage from other barns goes into the stream above the intake.

At one place there is a pile of manure taken from the barn that is but a few feet from the stream, and drainage would certainly be noticeable after a heavy rain such as that which fell Monday night.

The water when analyzed had a high bacteria count, but no evidence of dangerous disease germs were in evidence, and there has been no serious epidemic of sickness due to the city water. After seeing the condition of the water supply, one is led to believe that this fact is due more to luck than any one thing.

The water bonds have been required, with the exception of \$1000, the News is informed, and the town has the money to take up this remaining obligation. The retiring council has stated that they did not want or intend to undertake the solution of the water problem as their term was soon to expire and they would be unable to finish the job. Therefore the solution of this proposition will be left up to the council the majority of which will be chosen next Tuesday. Immediate action is desired by water users, and this thought should be born in mind when voting for city officers.

In the meantime, my advice is to boil the water before drinking it, especially after a shower. Better safe than sorry.

Next week there will be some more dope on this subject, along with ideas of different citizens as to the solution.

## DEMOCRATIC SPEAKERS HAVE LARGE AUDIENCE

There was a good attendance at the democratic rally Tuesday evening in the band hall. The Estacada band furnished music for the occasion. The principal speakers were M. L. Piper of Portland, O. B. Eby and Judge Beatie of Oregon City.

## HALLOWEEN PRANKS IN EVIDENCE THURSDAY

Some of the Halloween pranks were amusing, to say the least. A. G. Ames found a goat tied in front of his door with a tag bearing the name "John Lovelace." Ames and Lovelace oppose each other as candidates for the office of mayor of Estacada, but Lovelace will not admit that his opponent "has his goat."

"The News man, when he came down town Thursday morning and noticed the "vote for Smith" signs on the plate glass at the Estacada State Bank, thought it rather amusing. However, when he reached the News office and found similar writings done in paint and spread all over the windows, the joke did not appeal so well to his sense of humor.
