**Methodist Church**  
It is of great benefit if every person just knew himself. If everyone would only pause long enough to estimate the principles that are in the makeup of life. Will the things each use bring out the best manhood and womanhood in the individual. Many know that they are pursuing after those things that will or even do give a poison sting to life. Better take from life that which is not good and get a close connection with God, who is able to deliver all, and give real joy and happiness.  
Again your attention is called to the Sunday service. At 11 a. m., the subject will be "Better men in a better world" and at 7:30 the second sermon on "What think ye of Christ." Both these subjects are worth hearing.  
Sunday school attendance is nearing the one hundred mark. We urge you to attend the school, which meets at 10 a. m. The Epworth League meets at 6:30. A cordial invitation extended to all.—C. T. Cook, Pastor.

**CONSTANT EXPANSION**  
—to serve Chevrolet owners better

**S**INCE January 1st more than a million new Chevrolets have been delivered to owners—making the Chevrolet Motor Company, for the second consecutive year, the world's largest builder of automobiles!

This outstanding achievement has been attained not only because of the quality and value of Chevrolet cars—but also because there has been a constant expansion of Chevrolet service facilities.

In order to bring these mammoth facilities of the Chevrolet factories to Chevrolet dealers and owners everywhere, there have been erected 26 huge parts warehouses in the principal centers of distribution. This expansion program is continually going on—for four great additional warehouses will be in operation by January first and seven more by the summer of 1929.

Into the service departments of all Chevrolet dealers, Chevrolet has brought special tools and shop equipment—designed under the supervision of Chevrolet engineers. This equipment definitely assures maximum speed and precision and the lowest possible cost in the performance of every Chevrolet service and repair operation—which are charged for on a flat rate basis.

Furthermore, all of these tremendous facilities have been made available to 15,000 authorized service stations manned by skilled mechanics, over 25,000 of whom have been factory trained to efficiently handle every repair operation on a Chevrolet car. In addition, there are over 4,000 other points where genuine Chevrolet parts may be obtained.

Uniformly efficient, uniformly reliable and within easy reach of everybody everywhere—this great service organization is maintaining at peak efficiency the fine performance for which Chevrolet cars have always been renowned.

We cordially invite you to come in and see how our service facilities reflect the influence of this great national service program.
