ELWOOD

Members of the P. T. A. circle gathered at the school house Friday and listened to a short, interesting program given by the school children. A business meeting of the circle was held and County Superintendent Vedder gave an interesting talk concerning taxation for school purposes and of things especially interesting to this district. A delicious lunch was served by members of the P. T. association.
Mrs. Matilda Surfus of Richmond, Va., formerly of this place, arrived last week to visit her daughter, Mrs. Dan Stahlnecker, and other relatives and friends in this vicinity.

To the 5000 who daily become owners of the new Ford car

THE service obligation of the Ford Motor Company and its dealer organization is now growing at the rate of 5000 cars a day. It is to these new car owners that this message is addressed.
The new Ford is a remarkably fine car for one that costs so little. It is simple in design, constructed of the finest materials, and built to unusually close measurements.
These are the reasons it performs so wonderfully. These are also the reasons its service requirements are so few and the up-keep cost so low.
When you receive your new car, the dealer will explain the simple little things that should be attended to at regular intervals to insure the best performance. He will also tell you something of his own facilities for doing this work promptly and at small cost.
With the purchase of your car, you are entitled to Free Inspection Service by your dealer at 500, 1000 and 1500 miles. This service is due you and we urge you to take full advantage of it. Proper care during this breaking-in period means a great deal to the life of your car.
Included in the Free Inspection Service is a check-up of the battery, the generator charging rate, the distributor, the carburetor adjustment, lights, brakes, shock absorbers, tire inflation and steering gear. The engine oil is also changed and chassis lubricated.
No charge whatever is made for labor or materials incidental to this inspection service, except where repairs are necessary because of accident, neglect, or misuse.
The labor of changing the engine oil and lubricating the chassis is also free, although a charge is made for the new oil.
We believe that when you see the good effects of this inspection you will continue to have it done regularly throughout the life of your car.
Wherever you live, you will find the Ford dealer very helpful in keeping your car in good running order for many thousands of miles at a minimum of trouble and expense.
He operates under close factory supervision and has been trained and equipped to do this work promptly, thoroughly and economically.
