A Canned Christmas

All is not lost though the times have changed. Even the smallest households, with the most miniature of kitchenettes, may eat boar's head, grouse, or duck, and even the characteristic green turtle soup, added by the canner. Many of these unusual specialties are delightful surprises packed in the Christmas basket of those who must celebrate the holiday far from home and friends, providing the traditional dinner in quite merry fashion.—Delineator Magazine.

EGYPTIAN TREE

THE Christmas tree, which has become an almost universal symbol, and is by most persons supposed to have originated in Germany, seems to have had something of a counterpart in Egypt at a period long before the Christian era. The palm tree is known to put forth a branch every month, and a spray of this tree, with twelve shoots on it, was used in Egypt at the time of the winter solstice, as a symbol of the year completed.
