CHURCHES

Estacada Methodist Church
The child is the greatest possibility in the world. No man can tell by looking at a child what he may become.

A little boy was born in the hills of old Judea. His parents are so poor that the night He was born they rested with the cattle in a shed. No poor they could afford but two turtle doves for an offering. After He was a boy of 12, He never went, so far as we know, fifty miles from His home. He never had any training in music, art, literature, science or business. What is there for that boy? A cross, a grave in a strangers garden! Yet that boy has brought the best musicians dedicate their most noble compositions to His name. The greatest artists have depicted scenes from His life. Literature has sung in splendid verse, related graphic prose and told His historic dignity, the story of His life. Science has sought its inspiration at His fire, and has discovered afresh the eternal oneness of the universe.

He is only a boy! But what possibilities were wrapped up in Him! And how He blessed the whole world and all life! Out from His borrowed cradle among the cattle, out from His lowly and humble career, out from His supreme sacrifice, out from His silent grave, has redeemed and is redeeming humanity.

Next Sunday morning at 11 o'clock the subject for the sermon will be, "God Works as an Indwelling Life." In the evening at 7:30 the topic will be, "I Am the Truth."

Sunday school at 10 a. m. We passed the one hundred mark so make an effort to come out and boost the attendance still higher. The Epworth League meets at 6:30 in the evening. A most cordial welcome is extended to any who will worship with us.—C. T. Cook, pastor.

Sandy Lutheran Church
Arise, shine, for thy light is come and the glory of the Lord is risen upon thee, is the keynote of the Epiphany season as sounded forth by the prophet Isaiah in the sixtieth chapter.

The Epiphany cycle of the church year follows the Christmas season and embraces the six weeks preceding the Lenten season. The Epiphany season with its lessons depicts Jesus as the Savior of the Gentile world. The Wise Men of the East are the first of the Gentile world to come and worship the new born King at Bethlehem.

The world today with much of modern heathenish needs the same light of the gospel of Jesus Christ to enlighten it. Jesus reveals himself as the Savior in His word. Let us make diligent use of the word and we shall experience its blessed light and influence.

Over forty partook of holy communion at the service last Sunday which was in German, and the service was well attended. English service next Sunday at the regular hour, 10:30 a. m. We bid you a hearty welcome.—F. T. Schoen, pastor.

Estacada Christian Church
"Christ the Savior" is the subject for the Sunday morning Bible school lesson. This lesson naturally follows those which have preceded it. When we come to understand the existence and nature of God, and the sin which separates us from Him, the next problem is a consideration of a reconciliation or redemption. This subject is intensely interesting, for herein lies the heart of Christianity. A cordial invitation and a hearty welcome for all.

Following the Bible school at 10 Communion and preaching at 11. The sermon message will be "The Clod and the Rock."

Christian Endeavor at 7 p. m., topic, "Seeing the Good in Men Everywhere." Miss Bessie Anderson is president and James Beck is leader. Sermonette, "Quack Doctor and Bald Hornets." Welcome all.—Hugh Foster, pastor.

Presbyterian Churches
Rev. E. R. D. Hollensted of Fairview, Oregon, will preach this Sunday. You are cordially invited to

PIONEER OF ELWOOD DISTRICT PASSES

ELWOOD, Jan. 17.—(Special).—C. A. Stromgreen died at his home Friday, January 11. Funeral services were held in the Colton Lutheran church Sunday at 2 o'clock, interment in the Swedish cemetery.

Mr. Stromgreen was born in Sweden in 1840. He and his wife, who is still living, settled on a homestead in this district in 1872, and lived here until a few years ago when they removed to Old Colton district. In his earlier years he took an active part in the affairs of this neighborhood and was highly esteemed by his friends and neighbors. He was chairman of the school board when the writer graduated from the eighth grade, 30 years ago.

Miss Hannah Stromgreen of San Francisco came up to help care for her uncle in his recent illness.

Mary Gregg, who is teaching near McMinnville, spent the week end at the Matt Jaggin home. Miss Gregg taught in this district two years ago.

Mr. and Mrs. L. M. Cox made a trip to Carver Sunday.

Otis Vallen and Lorenzo Wilson were Oregon City visitors Saturday.

Henry Cadonau, who has spent the past six weeks in this neighborhood, left for Portland Friday.

Mrs. Matt Park visited with Mrs. A. U. Bogden Friday.

Miss Lillian Shumacher visited at the J. E. Nelson home Saturday.

SPECIAL TREATMENTS OF METALS USED IN THE NEW MODEL A FORD

The new Model A Ford automobile contains some of the finest examples in the world of new metal treatments for resistance to wear and to the torsional strain imposed upon some of the parts of the modern internal combustion engine.

One of these is the crankshaft. In this latest Ford product the crankshaft is made of a special Ford carbon manganese steel, developed under processes of metal blending and heat treatment that are new to the industry.

These processes produce a crankshaft that is heavier than any previous crankshaft, that is tougher to resist wear and stronger to resist the torsional strain of high speed performance. The weight of the shaft in itself makes for smoother operation and the static and dynamic balancing process to which it is subjected before it is installed in the motor still further reduces the chances of vibration.

This special carbon manganese steel is only one of more than forty different kinds of steel, each representing a special treatment, which are used in the manufacture of the new Model A Ford car, according to R. S. Smith, Ford dealer of Sandy.

NOTICE OF FILING PLATS OF SURVEY

Notice is given from the U. S. land office at Roseburg of the filing of plats of land; sections 6, 7, 18, 19, 30 and 31 of township 1 S. range 7 E, and all of township 4 S. range 8 E. W. M., and the plat of survey will be filled in the Roseburg office at 9 o'clock a. m., on February 19.

All of the lands represented on the above mentioned plats are within the Mt. Hood National forest, township 1 S., range 7 E., withdrawn on March 4, 1892, and township 4 S., range 8 E., withdrawn September 28, 1893, and therefore no part thereof will be available for entry under the general public land laws, except where embraced in valid adverse claims prior to the said withdrawals. Application by any prior adverse

claimants, if any, may be filed in the Roseburg office within twenty days prior to the date of filing the plats, and should be filed within 90 days thereafter.

The following lands were reserved from entry, location, or other disposal, August 26, 1924, under sec. 24 of the act of June 10, 1920, application of Oregon and California Hydro-Electric company:

All of section 1, E 1/2 of sec. 12, S 1/2 NW 1/4, SW 1/4 of sec. 15; all of sec. 16, NE 1/4, S 1/2 NW 1/4 and S 1/2 of sec. 17, SE 1/4 NE 1/4 and SE 1/4 of sec. 18, NE 1/4 of sec. 19, N 1/2, N 1/2 S 1/2 sec. 20, all of sec. 21 and NW 1/4 of sec. 22, township 4 S., range 8 E., Washington meridian.

The E 1/2 of sec. 36 township 4 S., range 8 E. was withdrawn under first form, act of June 17, 1902, by the secretary on March 21, 1916, for Clear Lake reservoir site, White river project.

PORTLAND FIRM BUYS TIMBER AT VIOLA

VIOLA, Jan. 17.—(Special).—A company of Portland, Mayer & Co., has bought all of the timber, 640 acres, on the old Braasch place. Claud Porter sold them his right in the timber and houses. They are planning to cut the timber making it into ties and cord wood, which will give employment to several men.

George Whitfield, a brother of Mrs. Bob Mattoon, was taken to the Oregon City hospital Monday evening, where he was operated on for appendicitis. A sister of Mrs. Mattoon, Ruth Whitfield, has been quite ill at the Good Samaritan hospital in Portland for the past two weeks.

There has been quite a lot of flu in the neighborhood. We are glad to report that they are all getting well now.

Mr. and Mrs. Emery Powers had as their dinner guests Sunday, Mr. and Mrs. Evenson of Redland, Earnie and Miss Annie Bateson, Mr. and Mrs. Pool from Canby, and Mr. and Mrs. Eldon Lankus from Gresham, and Helen and Junior Powers. James Sevier, while cranking his auto, was knocked down and injured his back quite severely. He says that kick was as bad as a mule's.

Nearly all the families who were living at the old mill have moved out as the wood cutters want the houses for their families.

We Specialize in
EXTRACTION OF TEETH

At this office we are equipped to handle the most difficult extraction, with gas or local injection around the gums.

A trained dental nurse to insure cleanliness.

My past experience will bear me out as a painless extractor of Teeth.

CHEVROLET

for Economical Transportation

The Outstanding Chevrolet
of Chevrolet History
- a Six in the price range of the four!

represents 4 years of Development and over a Million miles of Testing

Years ago, the Chevrolet Motor Company designed and built its first experimental six-cylinder motor. This far-sighted step was taken because Chevrolet engineers knew that the six-cylinder motor is inherently the most perfectly balanced motor—the ideal power plant to meet the growing public demand for greater reserve power, faster get-away and, above all—smooth, quiet performance.

During the last four years, over a hundred six-cylinder motors were built by Chevrolet engineers and tested on the General Motors Proving Ground.

Day and night, through winter's cold and summer's heat, the incessant testing went on—until the present motor was developed and finally pronounced correct.

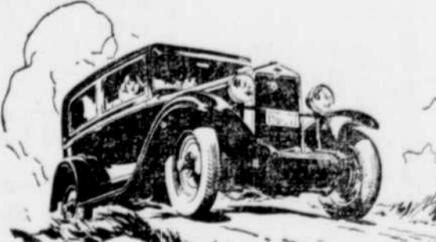

At the same time other Chevrolet engineers were perfecting other parts of the chassis. And another great automotive organization—the Fisher Body Corporation—was devoting its gigantic resources to the creation of the finest, sturdiest and most beautiful bodies ever offered on a low-priced automobile.

As a result, the Outstanding Chevrolet offers an order of well-balanced excellence—a combination of performance, comfort, beauty and handling ease that is truly remarkable—with a fuel-economy of better than 20 miles to the gallon of gasoline.

You owe it to yourself to see and inspect this remarkable car. Come in today!
