Only a FRACTION of
a Cent per Chick
Extra

The margin between success and failure is small; sometimes it rests upon the intelligent expenditure of a few cents.

The difference in cost of poor feed and Fisher's Feed is only a fraction of a cent per chick for the first several weeks of its life. When the future of your flock and your business depends upon the start your chicks get, you cannot afford to take chances in your feeding methods. Fisher's Chick Starter Milk

Mash and Fisher's Save Time Chick Mash contains eleven carefully selected, wholesome ingredients, furnishing the necessary digestible proteins, minerals and vitamins for proper development.
