GARDEN - COMMUNITY CLUBS HOLD MEETING

A. MEYERS GIVES ADDRESS ON LANDSCAPE GARDENING; PETITION FOR ROAD

The joint meeting of the Estacada Community and the Garden club at the high school Friday night brought out a large crowd. President J. G. Hayman of the Community club presided and the meeting was opened by the entire audience singing "America," making the hall ring with the patriotic air.

Miss Maude Sherman's first grade pup's, six little girls, gave the minuet dance as the next number on the program. They were dressed in costumes worn in the days of George Washington.

A. W. Armstrong, the only member of the Colton-Estacada road committee present, reported that a petition had been prepared to be presented to the county court and asked for signatures. His request was extensively granted.

Seven boys from the second and third grades sang, and "Buddy" Bartholomew highly entertained the audience with a reading, which was followed by a playlet entitled "The Boston Tea Party" by fourth grade girls.

Adolph Meyers of Portland gave a talk on "Landscape Gardening" and other allied subjects, using some lantern slides to illustrate his remarks, which proved interesting. At the close of his address he invited the audience to ask questions and several responded. The Garden club is particularly interested in regard to the right kind of trees to set out on Main street.

A. W. Armstrong concluded the meeting by giving a talk on game and wild animals. He said he did not approve of hunting deer on the river, that the deer were fast diminishing in number on account of the hunters' bullets and cougars.

Mr. Armstrong, who is a forest ranger and well versed in the conditions of the timbered districts of Oregon, said he was in favor of trying to get a law passed prohibiting deer hunting on the rivers, and extending the protected zone one-half mile on each side.

The next meeting of the Community club is to be held March 29.

OREGON 4-H CLUB WORK SHOWS LARGE NET PROFIT

Boys and girls club work enrollment in Oregon for 1928 shows an increase of about sixteen hundred over 1927, with 4266 boys and 7482 girls taking club projects. The gross value of products was \$206,098.03 with a net profit above carefully calculated cost of production of \$69,405.14. The annual report of the state office in the extension service at the state college showed this to be an increase of nearly \$20,000 in gross value over last year.

The total number of clubs for the year was 1488 with every county in the state having from 1 to 172 clubs except Harney and Lake. Multnomah, including the city of Portland, has the largest number, but Lane county with 160, led all the rest, Clackamas being third with 114. The total number of clubs has mounted steadily since 1920 when only 610 were organized in the entire state. The number of clubs for this year was 275 greater than for 1927.

Sewing and cooking projects proved the most popular among the girls and dairy and poultry led in interest among the boys. New projects with only one club each were farm mechanics, farm accounts, bulbs, mint and wheat.

The record for completed projects was 82.6 per cent—the highest mark in history. Earliest records, which go back to 1914, show that that year only 2 per cent completed the work undertaken.

The number of 100 per cent clubs this year was particularly gratifying, said L. J. Allen, acting state club leader in commenting on the report, as this is teaching the club members to complete projects when once started. To each such club we are issuing certificates of achievement signed by distinguished national and state officials. This last year 773 clubs won the distinction of having every member complete all the work assigned, as compared with 655 in 1927.

Approximately half the total club membership of the state was in the seven counties having full or half time club agents, the report shows. These counties also had an average percentage of completions of 95.7 per cent.

SATURDAY END OF BIG HONOR ROLL EXTRA BONUS VOTES

Now Is the Opportune Time to Win Your Choice of the Many Valuable Prizes to Be Given Away in the Clackamas County News' "Everybody Wins" Campaign.

Only a few more hours remain and the opportunity for big votes in the Clackamas County News' Mammoth \$2500 Free Gift Distribution ends. Up until 9 p. m. Saturday night is your last opportunity to cash in on this stupendous offer, which will place you, with a little effort, in the position in the vote standing which you desire.

The greatest vote offer in the entire campaign is now in force. It is positively the only extra bonus offer being made in the first or any other period of the campaign. Those who are wise will avail themselves of their opportunity during the next few hours and will gather in the harvest of votes during Honor Roll Days, which are absolutely and positively the biggest vote days of the entire campaign.

The big first period ends just one week later, on Saturday, March 9.

Those who have been thinking of entering the big campaign and those whose names now appear in the list of candidates, but who have not yet started an active campaign, will find no better time to start than right now. A careful study of Honor Roll Coupons is recommended candidates or those considering accepting the Clackamas County News offer and participating in the big gift list.

With the present big first period schedule yet in effect and the Honor Roll bonus effective until Saturday, March 2, at 9 p. m., giving the candidate or late starter a chance to pile up votes on the double quick, no one should delay entering this big campaign with the determination and earnestness to win by 9 p. m. Saturday night.

Will Bring Success

Work done during Honor Roll Days will easily bring success to the real candidates in this campaign. The laggard, unwilling to devote any time or thought to the big gifts, however, will reap no reward. This is a campaign for live wires.

If you are ambitious, if you are

awake, if you are willing to devote some of your time to a proposition whereby more than \$2500 in gifts are at stake, then you should be a candidate—you should enter this gift distribution, TODAY!

You can secure a large, beautiful, enclosed automobile, a valuable gift, or a part of hundreds of dollars in cash in a very few days of earnest application to the business of helping yourself.

There are automobiles valued at \$870 and \$732. Then the \$215.00 Frigidaire, there are two radios valued at \$125 and \$100, and a \$40 set of Rogers silverware. And the basis of distribution is a guaranteed cash commission of your total subscription sales.

Work Repaid

Winning either of these fine cars or other gifts will pay you many times over for your effort. The opportunity is here for you, no matter whether you are at present a candidate or a new entry, it is what you do these next few hours, between now and Saturday night at 9 o'clock, which will largely determine your campaign success.

Those who contemplate entering should do so this week. The News office at Estacada and Sandy will remain open each evening. Telephone, call or write for any further information you desire.
