SPRINGWATER

SPRINGWATER, April 11.—(Special)—Rev and Mrs. E. R. D. Holtensted, the minister and his wife who have been chosen for this circuit, moved into the parsonage here last Tuesday. The church has been without a minister since Mr. and Mrs. Kirkwood left, early this spring, and this community is glad to extend a welcome to them and hope they will enjoy being with us. Services for worship will be held at the Springwater church at 11 o'clock each Sunday, at George in the afternoon and at Eagle Creek in the evening.

Miss Madden and Mr. and Mrs. A. C. Cogswell, of Eagle Creek, went to Whiteson, Wednesday, to visit with a niece of Miss Madden, Mrs. Duncan McDonald and her husband; also some of their old friends from northern Idaho, who were visiting there for a few days. Miss Madden returned to her home here Friday.

Mr. and Mrs. Melvin Keller and Mrs. Wiley Howell were guests of Mr. and Mrs. John Keller, in Dodge, on Thursday.

Mr. and Mrs. John Marshall have traded their farm here for an apartment house in Portland and are moving away this week.

Evertt Shibley and baby daughter have been quite sick with a cold and a doctor was called to attend the baby. They are very much improved at present.

Mrs. J. A. Shibley was sick for several days last week, but is reported better.

Mr. Myers is working at the J. Moger farm, taking care of the little lambs.

Mr. and Mrs. Fulsom, from Dayton, Wash., who are here visiting their laughter and family, Mrs. Harold Horner, have gone to Sandy to visit their son, Jim Fulsom, for a few days.

Springwater Grange meets Saturday, 13th, and members are asked to respond to roll call by giving some helpful hint on gardening.

There will be a congregational meeting at the church Friday evening, April 19. A pot-luck lunch will be served after the meeting. Everyone is invited to attend and bring something for the church. Coffee will be served by the Ladies' Aid.

Mr. and Mrs. Carroll Howell called on Mr. and Mrs. Frank Wheeler on Saturday evening.

Visitors at the Earl Shibley home this week were Mr. and Mrs. Dillum and Mr. and Mrs. Dickson, of Portland, on Thursday, and Mrs. Shibley's parents, Mr. and Mrs. Smedley, and Mr. and Mrs. Bellamy, of Portland, on Sunday.

Mrs. Frank Wheeler and children visited at the home of Mr. and Mrs. Arthur York on Sunday.

MARY AND KERRY STARS OF COMING SHOW, "LOVE ME"

The film combination of Norman Kerry and Mary Philbin is together again for the third time in a Universal production. The picture is "Love Me and the World is Mine," the first American picture to be made by E. A. Dupont, the noted UFA director, and it will be the feature attraction at the Liberty Theatre Sunday and Monday, April 14 and 15.

As an added attraction Manager Bill Perry has engaged the Royal Estacadaians to furnish music, and also has employed this newly organized orchestra to play each Sunday night.

Some four years ago, Mary Philbin, then virtually an unknown player, who had earned a trip to Hollywood by winning a beauty contest in Chicago, was chosen to play the lead in "Merry-Go-Round."

It was a daring thing for Universal to do, to place responsibility for a featured role in a million dollar production in a girl who had had almost no screen experience.

The picture proved that Universal's judgment had been correct. The picture was a triumph for Miss Philbin and for Kerry, who played the featured masculine role.

The popular team was together again in "The Phantom of the Opera," Universal's latest production of exceptional prominence.

Now they will be seen again in the same intriguing locale—that of pre-war Vienna—as in "Merry-Go-Round."

"Love Me and the World is Mine" is a picturization of the affairs of Hannerl, a novel by Rudolph Hanns Bartsch. The supporting cast includes Betty Compson, Henry B. Walthall, George Siegmann, Albert Conti, Mathilde Brundage, Charles Puffy, Martha Mattox and others.

Miss Ella Govin, of St. Louis, arrested for begging, was found to have borrowed five different babies to carry about with her.

DR. FREEZE RETURNS

Dr. Harvey Freeze, a well known eye specialist of Oregon City, has returned from Los Angeles and resumed his practice after an absence of a month. He took post graduate and clinical work as well as instruction in the use of three new scientific instruments, the Myoculator, Keratometer and Perimeter. Dr. Freeze claims that these three new instruments which he has added at a cost of over \$1000 will so improve optometric diagnosis that all interference with normal eye conditions is immediately traceable. He is now in his 26th year of practice, 14 of which have been in Clackamas county.—Adv.

First Sailboats

The paintings and sculptures in the early records of Egypt show regularly formed boats constructed of sawed planks of timber propelled by numerous rowers and also by sails. These vessels were long galleys with one mast and a large square sail which was sometimes of linen and sometimes of papyrus. The oldest authentic record as to these sailing vessels is the illustration of one of them used as a decoration of an Egyptian amphora (in the British museum), judged to have been made about 6000 B. C. It is noted, however, that these boats could sail only with the wind. The science of sailing against the wind was unknown for thousands of years. They sailed only when the wind was favorable. The oarsmen worked when the winds were unfavorable.

We Specialize in
