PANTORIUM CLEANERS OFFER NEW SERVICES

The Pantorium Cleaners of Oregon City who have been serving this community for many years with a weekly delivery and pickup service this week announce two important new services.

The first of these services is called lusterizing. All silk, rayon and ladies dress wear sent to the Pantorium cleaners is now lusterized at no additional cost. Lusterizing restores the original sizing and makes each garment like new. The second of these services is called Flexform. By means of Flexform the Pantorium cleaners are able to restore dresses to their original measurement or to quickly make minor alterations when forming. It is said "the most difficult to finish," or shrunk dresses respond quickly to the firm but gentle action of Flexform. No extra charge is made for Flexform service which is given to all dresses sent to the Pantorium cleaners for cleaning. Adv.

STREAMLINING SPRINGWATER HILL MAYOR'S AIM

Back in the '90's Springwater hill was a horse killer and the coming of the automobile has not wiped out the heavy grade. Now S. E. Wooster, Estacada's new mayor proposes to streamline the hill and take the pull

out of it by a new route. Backed by sundry citizens he will face the highway commission and show them how it can be done and incidently at the same time bridge a gap in the Foothills highway. Ed Shearer, the well known Springwater chicken expert also has a route which would accomplish the same end. It commences to look as if Springwater hill is on its way out as a bad place in the road.

GEORGE

We read the president's inauguration speech about the unity and spirit of America and enjoyed it. It appealed to our love of country and regard for its welfare. However we are only common men of America. We saw in another paper how the big shoe interests got a good economical one dollar year man fired because he saved several million dollars to us by

buying shoes from the small factory. Then the big factory grabbed off the shoe business at a big advance. Well it is just possible that the "big" interests will be the one to wreck our beloved country by holding us up for all there is in it so as to hoard more dollars and cause more poverty and distress in a land of plenty. Think is over
