

Plenty of Water at the Faucets... with a MYERS Water System!

IN a water system, CAPACITY and RELIABILITY are equally important. The famous old MYERS trademark assures you both. You may open one faucet at a time, or draw water simultaneously from several different locations—in kitchen, bathroom or laundry—at outside hose taps—in barnyard and outbuildings. There will always be plenty of water at ALL faucets when you have a precision-built MYERS Water System of the type and size suited to your needs. Quality is never sacrificed to price in the manufacture of MYERS products. The absolute dependability of MYERS Water Systems is proved daily in thousands of farm and suburban homes. Ask for interesting free booklet and let us furnish an estimate on your requirements.
